There are numerous think tanks, events and conferences on innovation, cases, technologies and policy. While valuable, there is a lack of action in them. They do not generate innovations as such. A Public Innovation Do-Tank (PIDoT) brings together citizens, public service organizations as well as businesses to produce a specific innovative proposal, for instance a prototype. The goal of the this workshop is to:</p> <ul style="list-style-type: none"> <li>• Establish the PIDoT as an network organization</li> <li>• Plan one or more Do-Tank events in 2013</li> <li>• Establish contacts with potential partners in different countries.</li> </ul>
