

AFRICA REINVENTING ITSELF

By creating digital Content & applying
its Creativity

By CODERS4AFRICA

2013 Global Forum

DRIVING THE DIGITAL FUTURE

Status Quo

- For far too long outsiders been telling the story and culture of Africa to both: African themselves and the world

End of Status Quo!

- There is a new generation of Africans that are working on that
- How is it possible?
 - Information Communication & Technology
 - Time and Space are reduced
 - Access to information
 - Bigger Impact & Scale

Just give coders & content creators knowledge and access to technology and you get:

Kenya First developing country to have an open government data portal

HomeAbout Kenya Open DataData CatalogueSuggest a DatasetCommunity AppsOutreachHelpSign UpSign In

Introducing the Kenya Open Data Initiative: The bigger picture

This site makes public government data accessible to the people of Kenya. High quality national census data, government expenditure, parliamentary proceedings and public service locations are just a taste of what's to come. Our information is a national asset, and it's time it was shared: this data is key to improving transparency; unlocking social and economic value; and building Government 2.0 in Kenya.

Latest Datasets and Views

- Poverty Rate, by District
- County Urbanization: Nairobi
- Local Authority Expenditures by Year: Nairobi
- Per Capita County Expenditures: Nairobi
- Kenya Primary Schools, 2007

Health Facility Chart

This chart shows the Health Facilities distribution across the Country.

KCPE Exam Scores

From the Kenya National Examinations Council, this data shows School KCPE exam results in 2006-2010.

GoK shared services

GoK End to End Services provides a comprehensive guide on how to acquire services that are provided by the Government of Kenya.

Counties

Information on the 47 Counties can be found here. Easily find data sets relating to a specific County.

Developer? Click here!

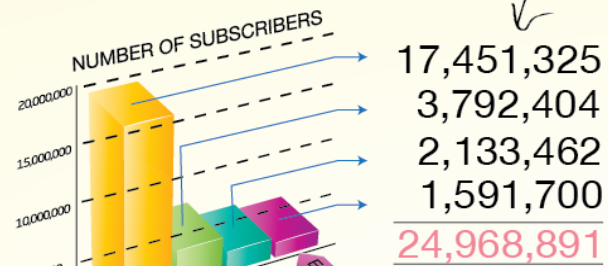

Find out about our powerful developer APIs and tools.

How all this possible?

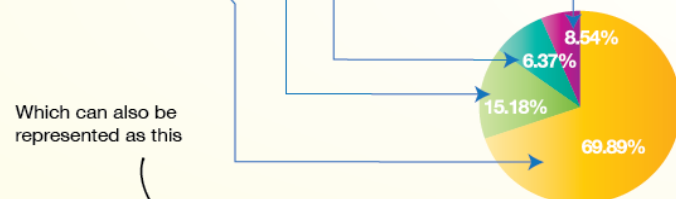

“In a continent with few computers and little electricity, a smartphone is not just a phone—it’s a potential revolution” *J.M. Ledgard* is The Economist's Nairobi correspondent.

Subscribers

The total number of mobile subscribers in Kenya as per the second quarter of 2010/2011 stood at

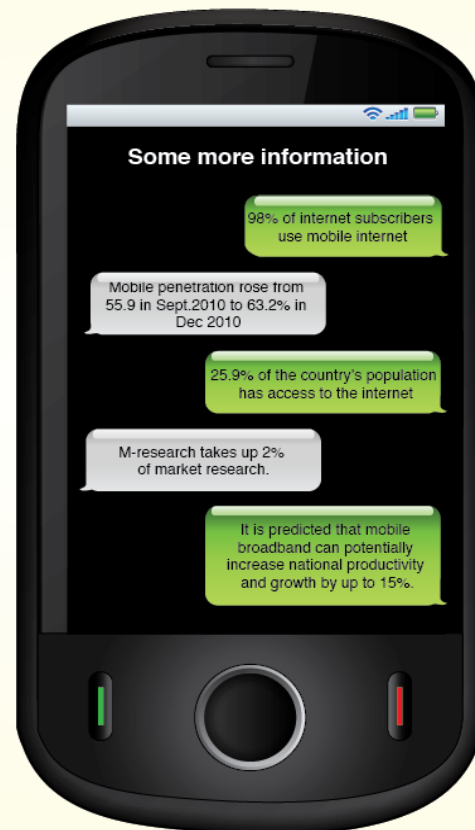

Which can also be represented as this

In the same quarter..

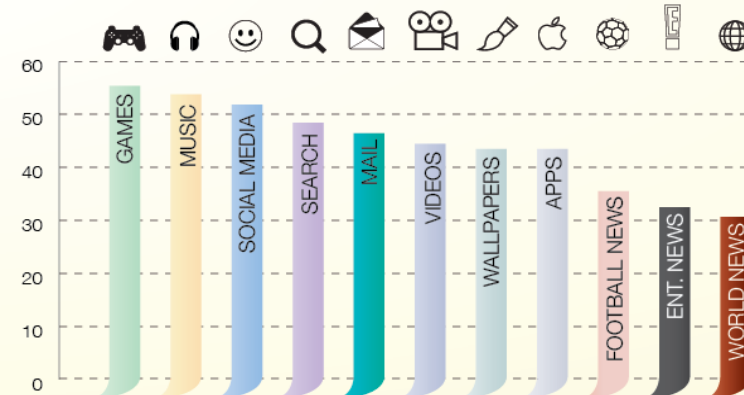

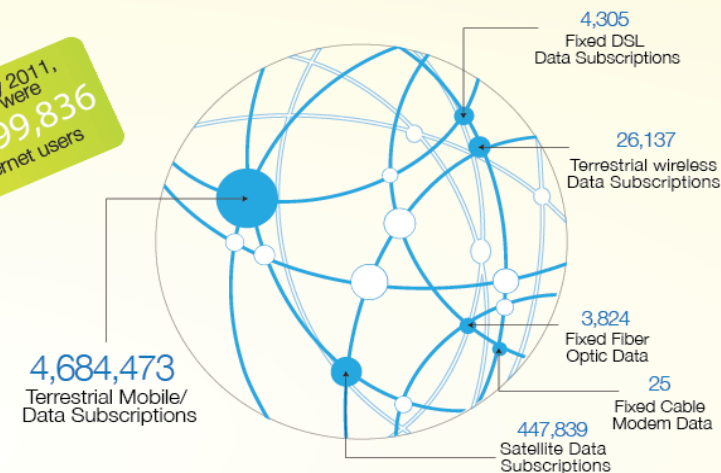

Penetration

Mobile Internet

As of May 2011, there were **10,199,836** Internet users

MOBILE INTERNET USAGE
