

Security Level:

Towards Intelligent Platforms

Introduction

November 7 - 8, 2011

www.huawei.com

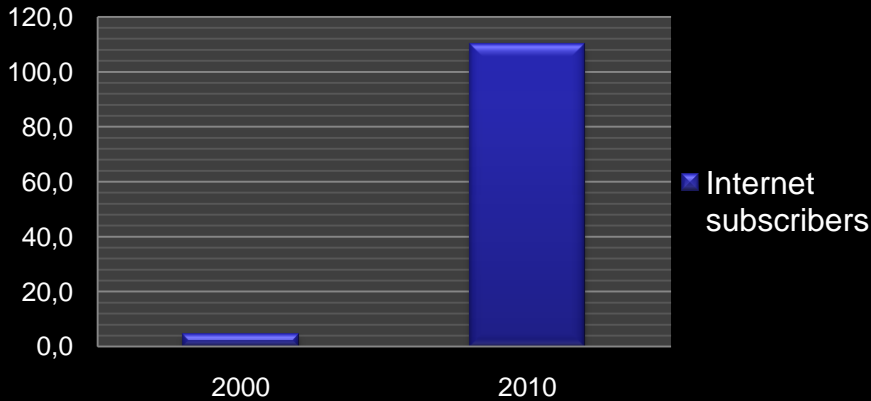

Olivier Picard
Chief Strategic Adviser, Huawei Technologies Co., LTD.

HUAWEI TECHNOLOGIES CO., LTD.

In the last 10 years, the explosion of Internet and mobile access has changed the world

Internet subscribers in Africa (million)

Mobile subscribers in Africa (million)

Mobile subscribers in Europe (million)

Internet subscribers in Europe (million)

Beyond: new telecom services in the next 10 years – focus on Cloud Computing

Devices Interoperability enhanced

From pipe to content
All media will be on-line , 750 million connected TV users

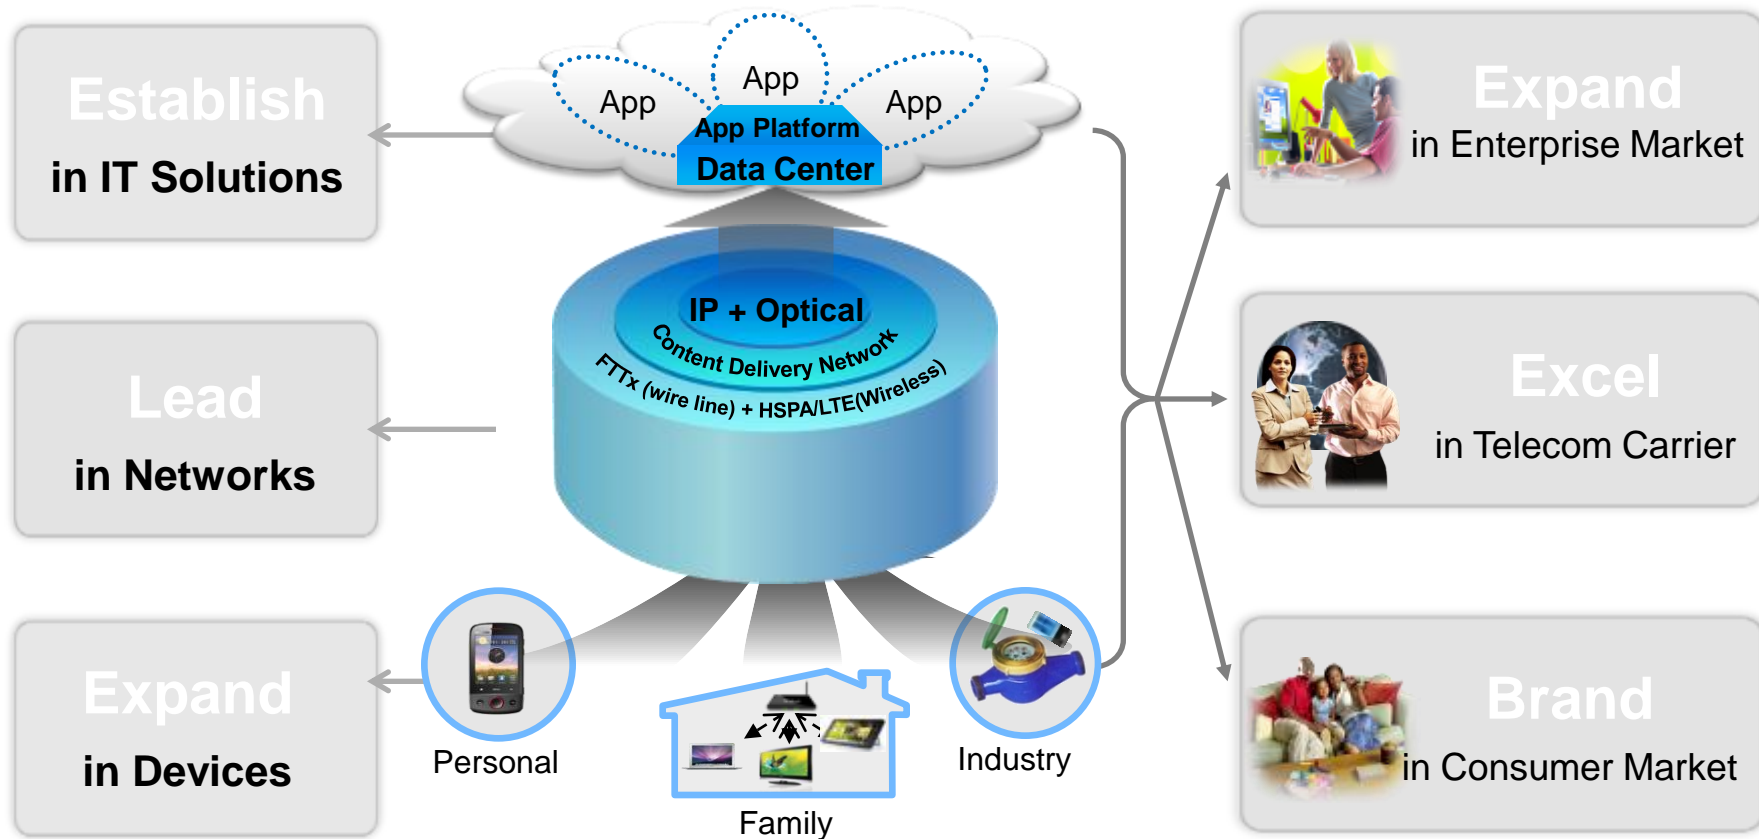

From people to machines
50 billion connections (the Internet of Things)

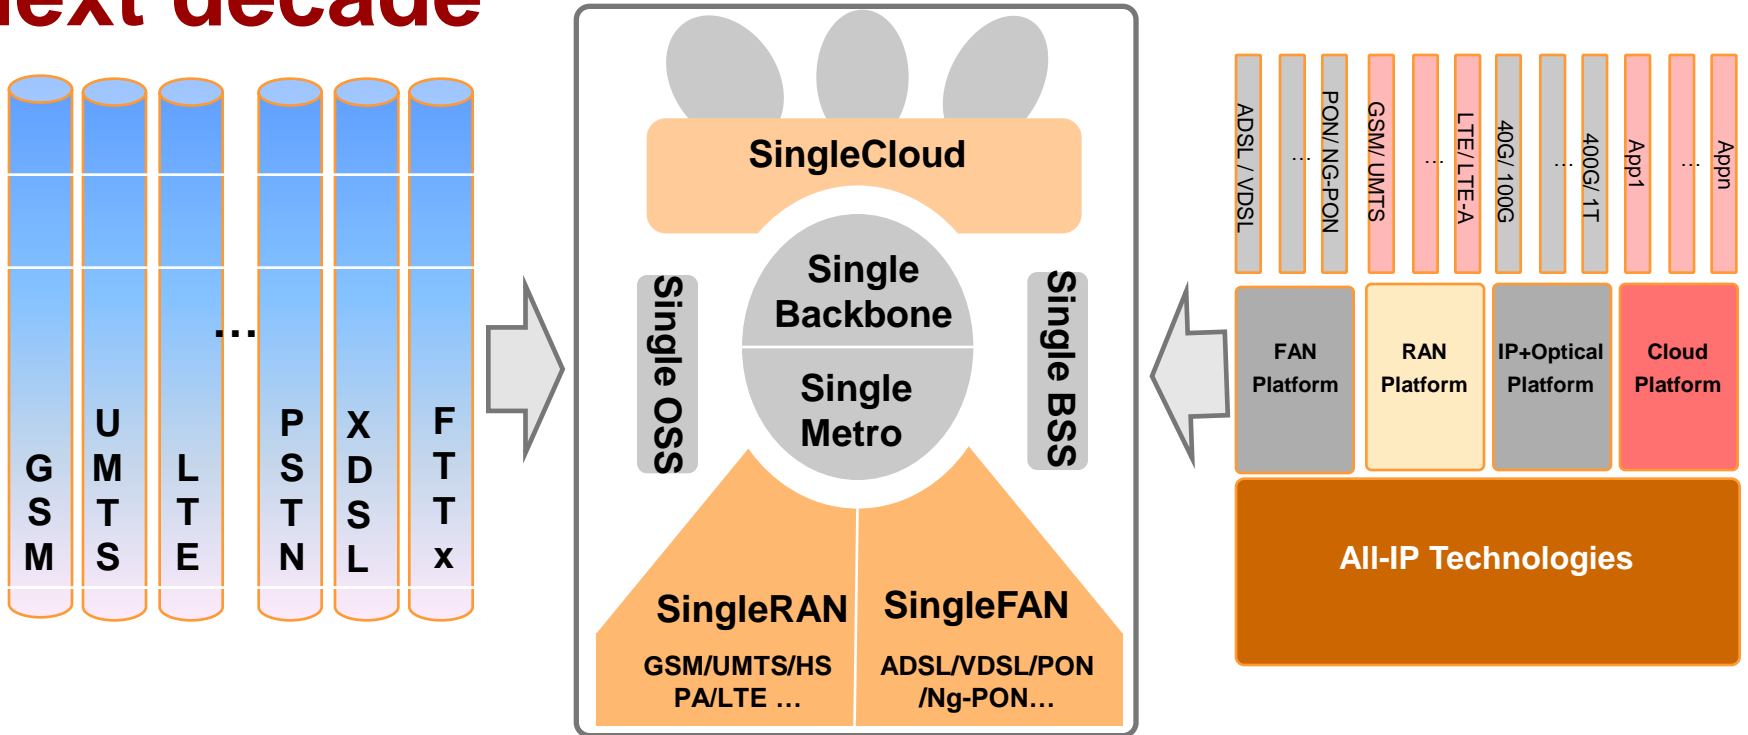

From hardware to Cloud
70% of companies (especially SMEs) will be using Cloud-based services

Huawei's B2B ICT strategy and customer strategy

Network strategy: “Single” for “seamlessly upgradable” evolution in the next decade

Multi Networks

Sequent generations

Single Network

Supporting bandwidth demands and emerging technologies for next 10 years

Seamlessly upgradable

All-IP enabled platforms, emerging technologies are “plug and play”

2 issues to take into account

- ***Regulation issue***
 - Standards adoption by EU and industries
 - Boosting consumer confidence
 - Fostering industry competitiveness
- ***What foundations for Cloud do we want ?***
 - Open Cloud
 - Private Cloud
 - Security component to address

Thank you
