1) Why EU needs PEPPOL?

www.peppol.eu

Government purchases in the European Union account for around 19 % of GDP, which is equal to 2,200 Billion Euro, that is 1/3 of procurement.

It is estimated that eProcurement could reduce total purchasing costs by around 5% and lower transaction costs by 10% annually.

In 2005, the ministerial Manchester declaration planned to open the market by 2010.

They failed as there is only
_ 5 % of e-procurement
_ 1 % cross-border e-procurement

2) What is PEPPOL?

www.peppol.eu

With STORK (access), SPOCS (business), eCodex (justice) EPSOS (health), PEPPOL is one of the 5 EU founded large scale pilots.

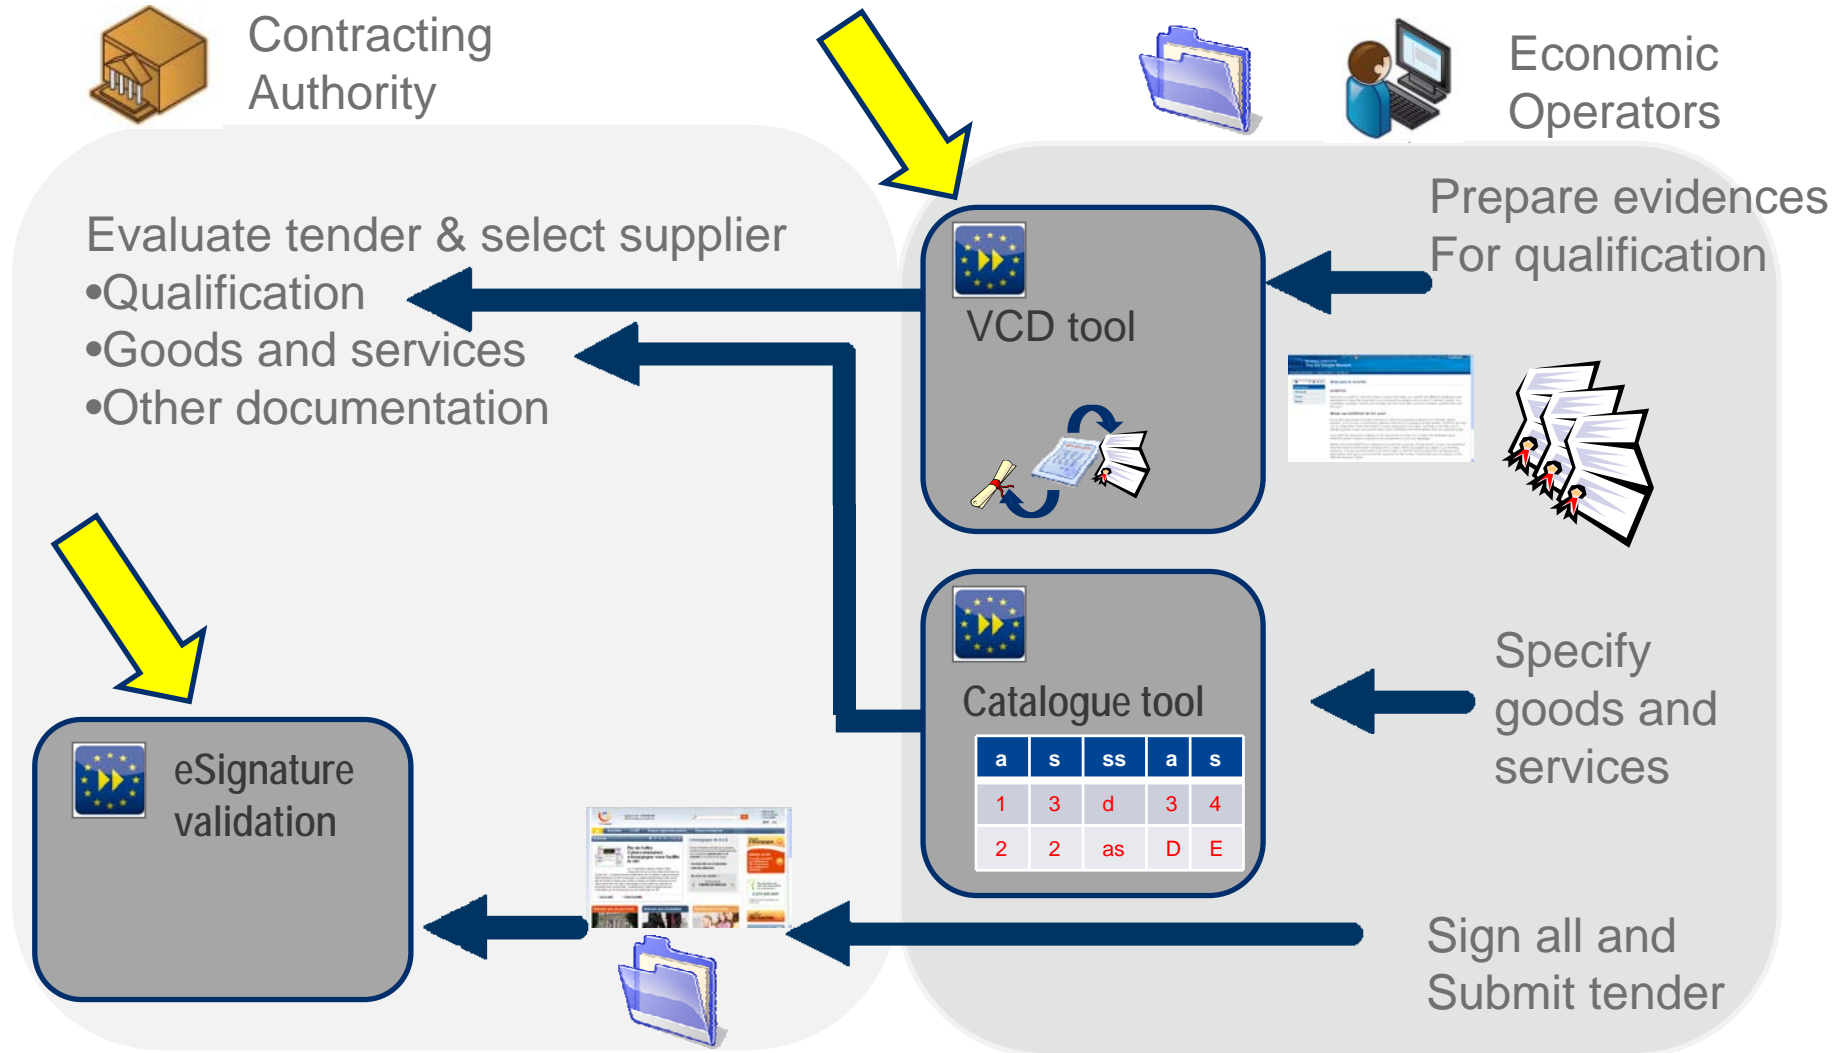

With PEPPOL, any company in the EU should be able to communicate electronically with any EU government institution for all procurement processes.

17 beneficiaries from 11 countries

- ▶▶ Total budget 30,8 M€
- ▶▶ 50% EC contribution for achieving interoperability
- ▶▶ Coordinated by the Norwegian Agency for Public Administration and eGovernment
- ▶▶ Project start up: 1 May 2008
- ▶▶ Project duration: 48 months
- ▶▶ Website: www.peppol.eu

3) Pre-award process

4) Post-award process
