

The Public Acquisitions Electronic System (SEAP)

Ministry of Communications and Information Society

Ministry of Communications and Information Society

What is the Public Acquisitions Electronic System?

Launched on March 4, 2002 at www.e-licitatie.ro, SEAP works based on the Law no. 468/2002, which establishes the principles, the general framework and the rules for using the on-line procedure to award public acquisition contracts.

Why www.e-licitatie.ro?

- to optimize the public acquisition system;
- to offer efficient services supporting the public acquisition process;
- to avoid problems in using SEAP;
- to answer our clients requests;
- to fully comply with legal requirements regarding the public acquisition process.
