NEWS All the news

Issy, a town open to the world
With the solid experience of being twinned with 10 cities, including 2 cooperation agreements in Togo (Dapaong) and Armenia (Etchmiadzine), for the past fifty years Issy-les-Moulineaux has shown its wish to conduct a dynamic international policy, designed to promote exchanges between citizens from many distant horizons.

Welcome to "Medialand"
With almost 70,000 jobs in a town of more than 60,000 inhabitants, Issy-les-Moulineaux offers a very dynamic economic fabric. A true Medialand, the town has based its economic development strategy on communications companies. With 1,430 businesses in the town, almost 60% of which are in the Information and Communication Technologies (ICT) sector, Issy-les-Moulineaux is focused resolutely on ambition and progress.
