

# To conclude

- ❧ We can improve the world's living standards while decreasing our environmental impact
- ❧ But we must
  - ❧ Improve education and awareness
  - ❧ Regulate and enforce efficiency and environmental responsibility
  - ❧ Develop and deploy efficient operational models, tools, practices, and technologies
  - ❧ Tuning and optimization must be an ongoing effort
  - ❧ Leverage technology to improve efficiency
  - ❧ Incentivise green IT procurement

The cheapest and  
most plentiful source  
of power is power that  
is *saved*

# The Future *Is* Green

Thank you!
