

A Powerful Business-Driven,  
Public-Supported Initiative  
in Infrastructure  
in the Malmö region,  
Sweden

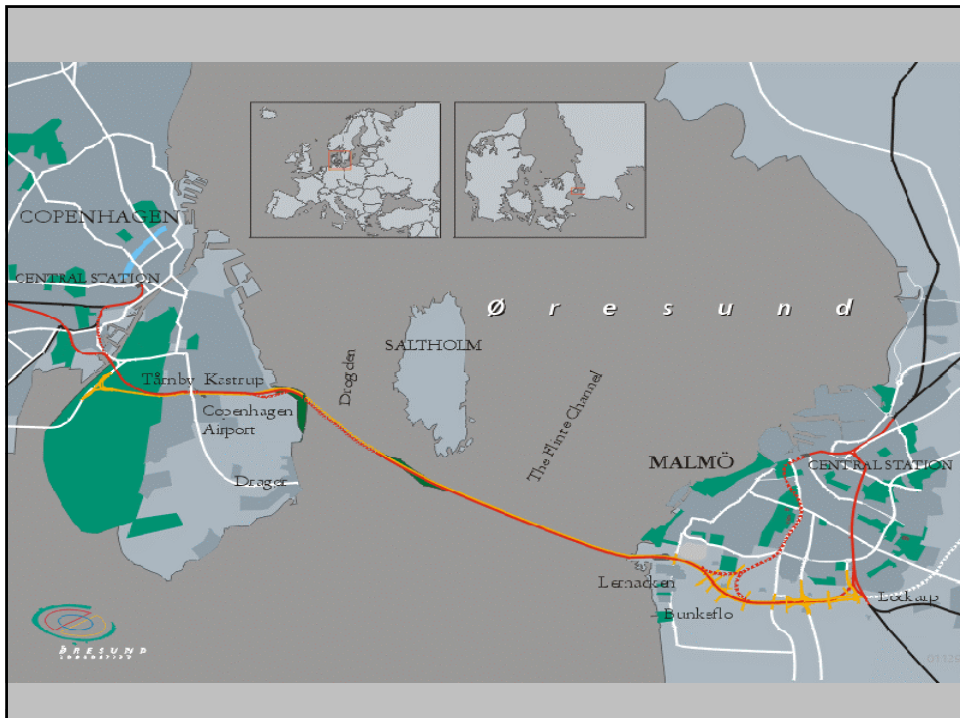

Global Forum November 2004

# SKÅNE & the Region of Öresund

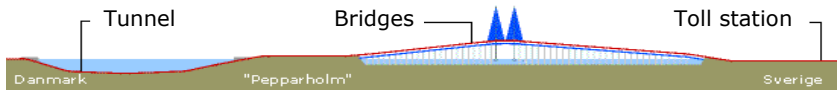

Skåne has

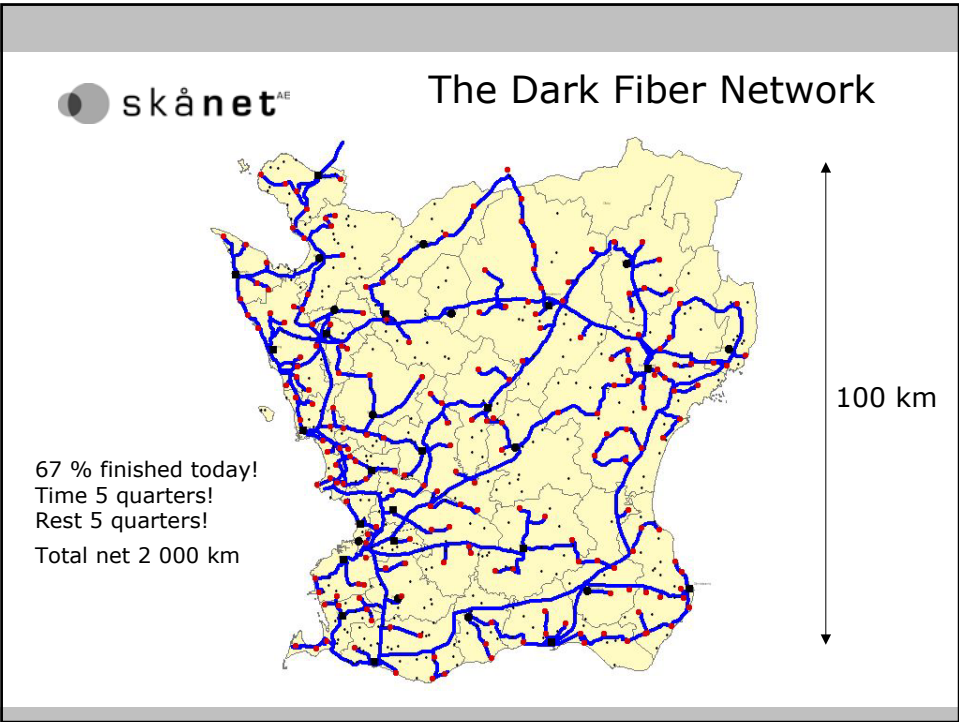

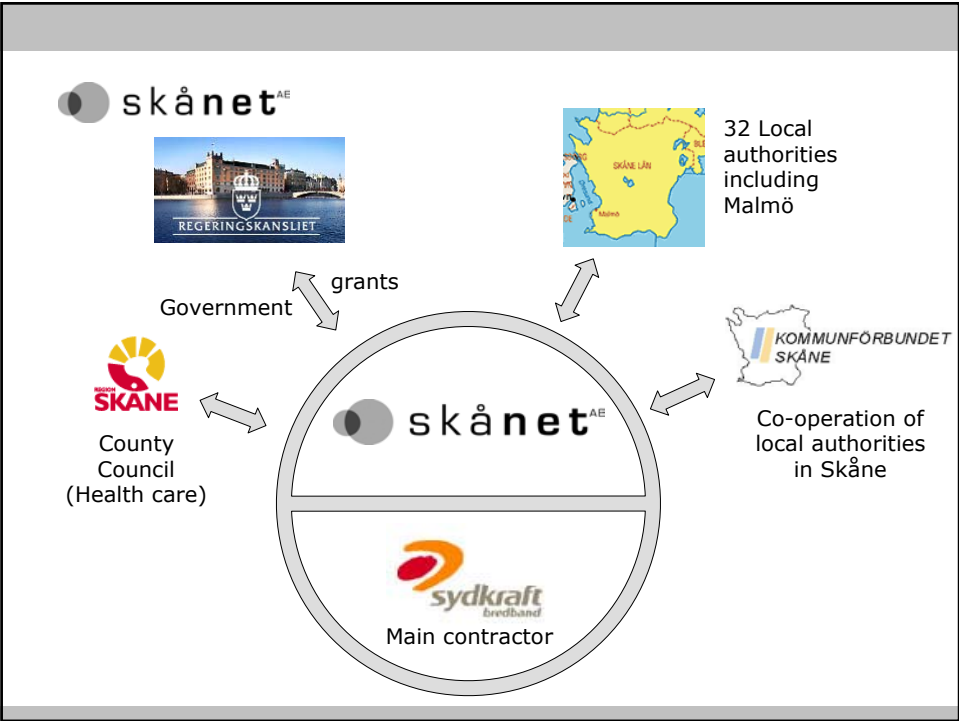

- 1,2 million people
- 500 000 households
- Expansive Öresund region with 4 million people
- New EU countries in the S. Östersjö region

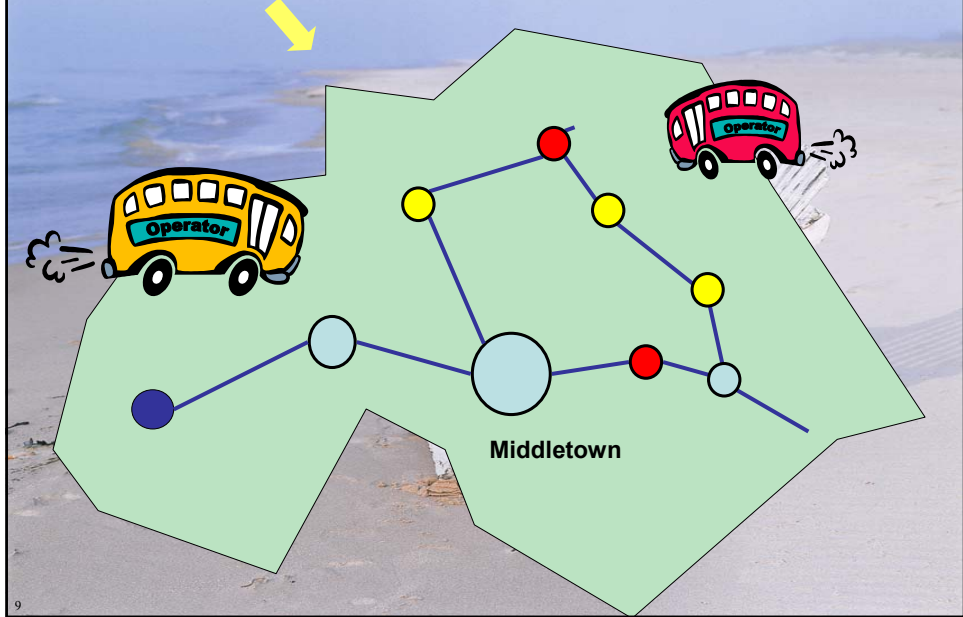

# International Gateway DFL – An Infrastructure Project

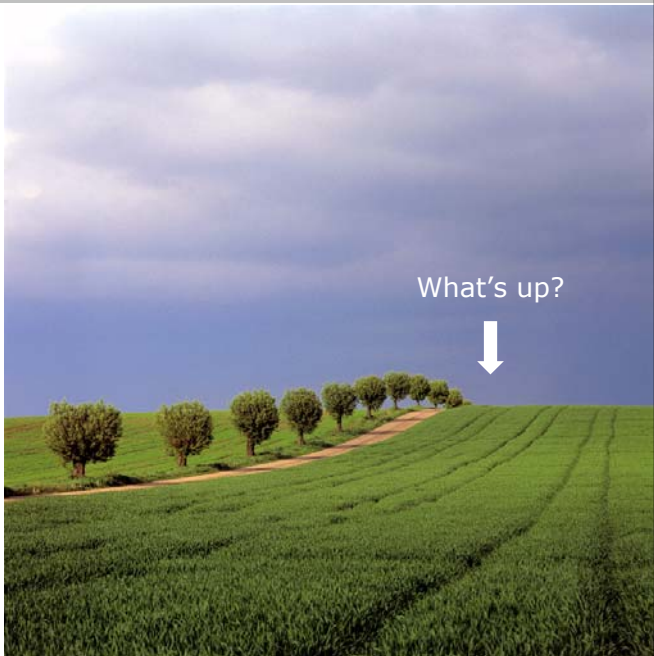

# An Infrastructure Project Analogy: network of roads

skånet<sup>AE</sup>

Next step

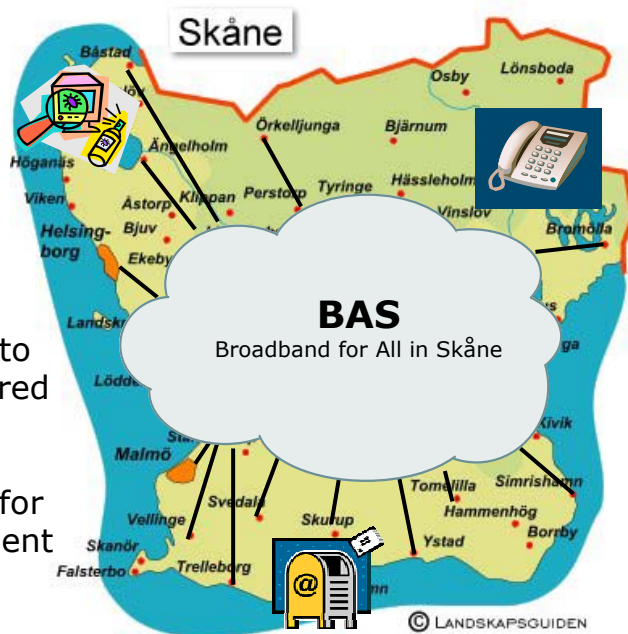

What's up?

Locally produced  
shared services

New opportunities to  
develop public-shared  
systems

New opportunities for  
business development

## Summing up

- An infrastructure for the whole region
- Residual resources for urban- and access networks
- Development of business and public administrations
- Attractive to operators and service suppliers
- Create a climate of "go" in the total region

*But at the same time, very low costs for the local authorities*
