The European Scenario

Lisbon Strategy's key points (March 2000)

...new and better jobs and greater social cohesion

...creation of a digital economy based on knowledge

...European space for research and innovation

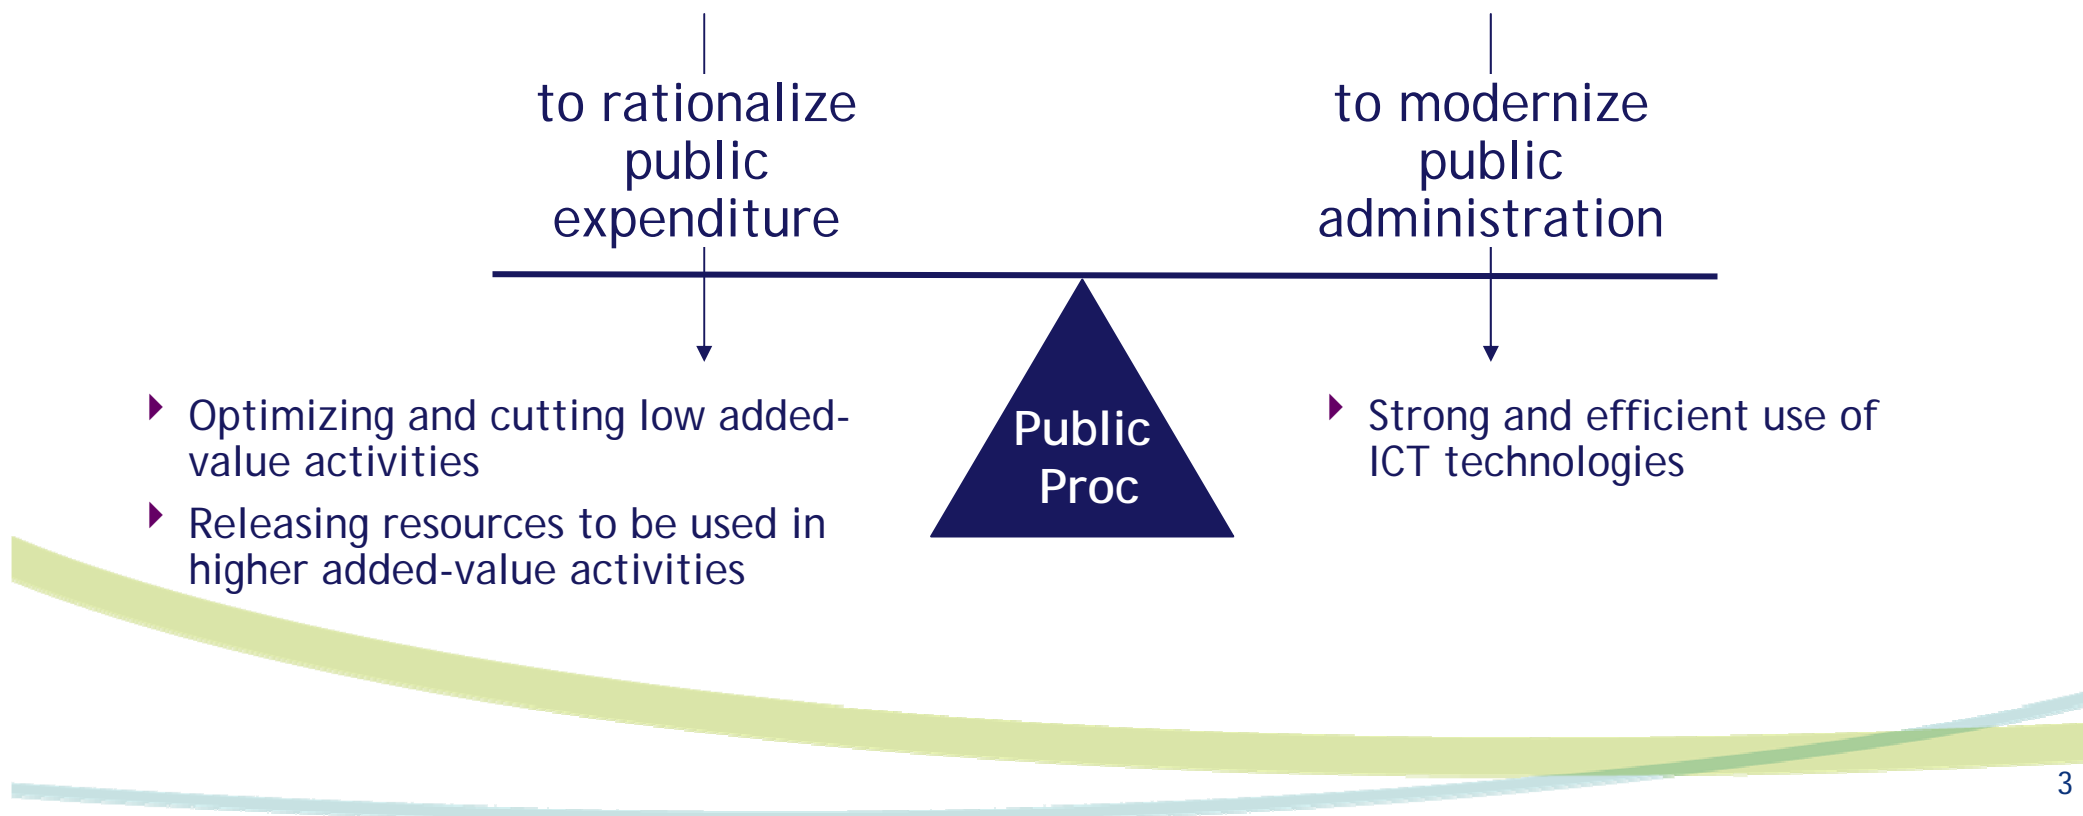

...development of innovative enterprises, especially SMEs

...development of new skills, especially ICT

National Action Plans

The Relevance of Public Procurement

Public Procurement - one of the areas with the greatest impact on the achievement of these goals - guarantees...

The Fall-Out in terms of eProcurement

ICT technologies - used to their potential - can be an important tool to rationalize and improve the relationship between suppliers and public authorities

attention to SME, tender participation requirements, rules on groupings, ...

Advantages for Suppliers

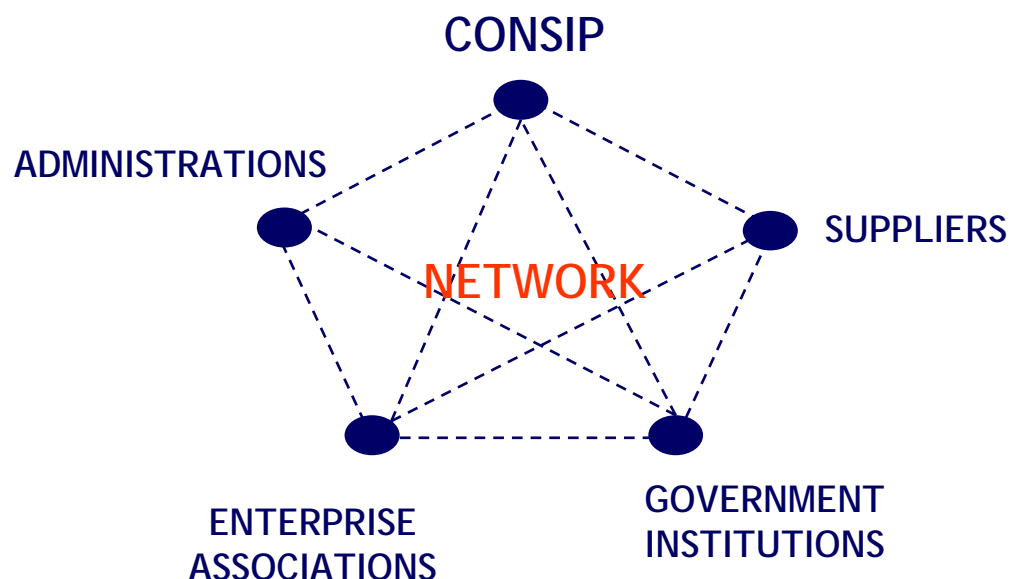

Advantages for PA

Time saving, Cost saving, Transparency,

Conclusions

The Public Sector is going through a time of great change, and our efforts should be targeted towards the total stability of an economic system characterized by several stakeholders...

Cooperation and networking between purchasing organizations (also on a European level) is useful and necessary!!
