GLOBAL FORUM 2005
Shaping the Future

THE BROAD CONVERGENCE: ACT II

Services & Applications for Businesses & Communities in a Global Knowledge-Based Society

MONDAY, NOVEMBER 7TH & TUESDAY, NOVEMBER 8TH, 2005
«PALAIS D'EGMONT» – BRUSSELS
Petit Sablon 8 - 1000 BRUSSELS, BELGIUM

ORGANIZATION		
BELGIAN FEDERAL GOVERNMENT www.belgium.be	**ITEMS INTERNATIONAL** Dr. Sylviane Toporkoff, President Global Forum Sébastien Lévy, Vice-President Global Forum	**SOPHIA-ANTIPOLIS FOUNDATION** Senator Pierre Laffitte, President

The magnificent Palais d'Egmont belongs to the Ministry of Foreign Affairs and is used for meetings of Heads of State and Ministers of Foreign Affairs.
Since the XVIth century, important architects, including Servandoni (architect of the Church Saint-Sulpice in Paris), T.F. Suys (architect of the Court of Holland) and Flanneau (architect of the Royal Palace) have supervised key phases of construction.

SUNDAY EVENING - NOVEMBER, 6th 2005

THE PROCEEDINGS OF THE GLOBAL FORUM ARE AVAILABLE TO ALL PARTICIPANTS

ORGANIZERS OF THE GLOBAL FORUM 2005

ITEMS INTERNATIONAL

Items International is an international consulting firm based in Paris, dedicated to delivering Information & Communication Technology (ICT) strategies. The company's scope of work covers:
- Strategic consultancy on telecommunications, market segmentation, support to the development of European businesses in the US, Japan and other countries, as well as of foreign businesses in Europe.
- Research and development in areas such as regulatory policy and economic aspects, interconnection issues, Information & Communication Technology (ICT) market research and international comparative analyses, strategic development for industrialists, operators and local/ regional/ national authorities.

Items annually organizes the "Global Forum / Shaping the Future" think tank in association with the Sophia-Antipolis Foundation, the European Commission and a number of international sponsors and experts. Dr. Sylviane Toporkoff, Vice-President of Items International, created and launched the "Global Forum / Shaping the Future" initiative in 1992 and has run the event for over a decade now. Her academic research and numerous contributions to private and public sector projects all over the world, including the European Union, enabled her to build a unique and high-quality network of relationships among those who shape the future of our society, throughout Europe, the United States, Japan, South East Asia, Latin America and elsewhere.

FOUNDATION SOPHIA ANTIPOLIS

The French **Sophia Antipolis Foundation** was created in 1984 by Senator Pierre Laffitte, and received state-approval for playing a fundamental role in the development of scientific and cultural activities. The purpose of the Foundation is to encourage the exchange of ideas and cooperation in scientific, industrial and cultural matters at a national, European and international level in order to create a new entrepreneurial culture, thereby turning Sophia Antipolis into an experimental laboratory for the future. Sophia Antipolis is a Science Park taking pride in being internationally recognized as one of the most dynamic and fastest growing technological and scientific hubs in Europe and a "best practice" site for innovation.

BELGIAN FEDERAL GOVERNMENT

The **Belgian Federal Government** has a long tradition in using ICT in administrations and governance: Already a decade ago, the Belgian Social Security Administration was using breaking edge technology with its Crossroads Bank for Social Security – an electronic information system connecting different databases in respect with all privacy issues related to social security, health information etc.

Today, with the introduction of the Electronic Identity Card, Belgium is attracting major partners in the ICT industry and positions itself as one of the more advanced countries in the field of eGovernment.

In 2005, Belgium is celebrating the 175th anniversary of its independence and the 25th anniversary of the federal state. This festive year, which is dedicated to looking forward to the future, encourages and provides many opportunities for coming together. This special year is about exchanging ideas between cultures, between generations, between the political, economic and social worlds, and between citizens. The Global Forum/Shaping the Future best fits with these objectives.
