

ISSY GRID

1st French district smartgrid

ISSYGRID 

First french proof of concept of district smartgrid

All
components
of smartgrid

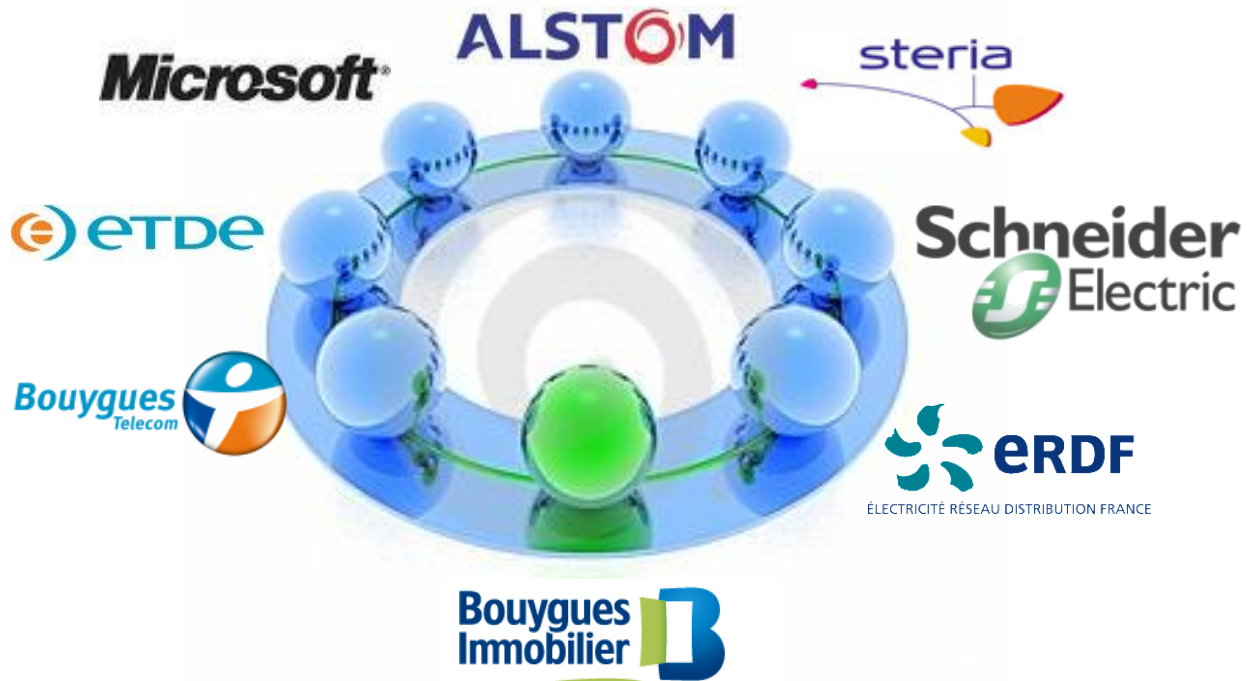

View of energy balancing

Issy Grid will allow to :

- Explain smart grid in a pedagogical way
- Further improve the energy performance of buildings and neighborhoods
- Open the building and the neighborhood on the local energy networks
- Better understand the uses, including mixed uses (residential, commercial, retail, infrastructure) and new uses (electric vehicles)
- Encourage the evolution of energy market
