

GLOBAL FORUM 2009

MOBILE BROADBAND WIRELESS ACCESS - CONNECTING ALL EU CITIZENS AGAINST ECONOMIC DOWNTURN

1. How to finance broadband infrastructure

- High implementation costs; Local authorities role;
- Need for a coherent legal/regulatory environment; need for active and open dialogue between industry, regulators and local authorities

2. Mobile broadband – fastest way for high broadband penetration

- Broadband is not the future of mobile, mobile is the future of broadband
- What are the incentives for investing in broadband

3. New mobile technologies

- What are the technologies to be deployed for developing broadband in Romania.
- How to better address the rural area

4. Infrastructure based competition or service based competition for broadband

- Tariffs levels
