

EINDHOVEN

S2: Digital Health Revolution Improving Society

**Chair: Giuseppe Grassi, MD,
Director Cardiology Department,
Venice Hospital ULSS 12, Italy**

**Ulss 12
Veneziana**

**Evoluon Center, Eindhoven, Netherlands
Monday September 19th AM 8:45 am-12:45 pm**

Digital revolution is the link of continuity between past and future

In this session we'll know the most advanced perspectives in many health fields, as we in Eindhoven are in the diamond tip of future technologies

- ▶ Venice, the most ancient western-type hospital still in use, is on the steps of a digital revolution in all aspects:
- ▶ E-prescription and pharmaceutical supply-chain
- ▶ m-Health (Remote Home telemonitoring of CHF and of Electrophysiological devices)

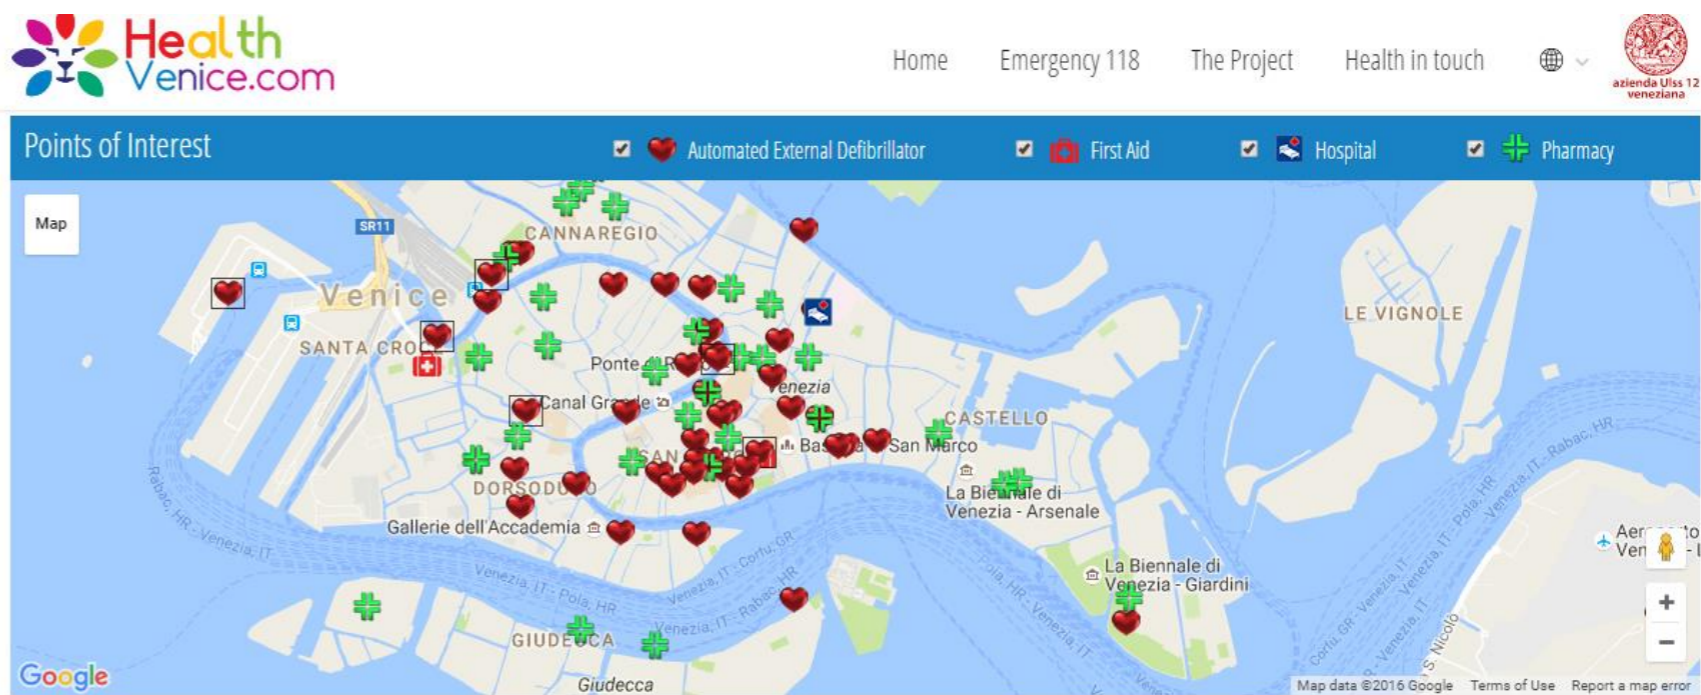

In this session we'll know the most advanced perspectives in many health fields, as we in Eindhoven are in the diamond tip of future technologies

- ▶ Full digitalization and remote access of radiological and cath-lab examinations
- ▶ Outpatients home access of lab tests...

▶ New technologies and internet are used also to give safety to the millions tourists visiting Venice and venetian sea and beaches

- ▶ Web site
- ▶ Interactive AED map
- ▶ How an old city works in a modern way

Our priority, your safety
