

Global Forum 2016 Organizers

ITEMS INTERNATIONAL

Items International is an international consulting firm based in Paris, dedicated to Information & Communication Technologies strategies. ITEMS International is specialized in digital technologies and services: broadband, Internet, broadcast and software.

ITEMS proposes a various range of consulting assistance: Strategic studies, Market analysis, International benchmarks, Technological Analysis, Business plans, Due diligence, Roll out assistance.

Created in 1994, the company has a long experience in strategic and marketing consulting, networking, knowledge sharing and transfer. ITEMS has launched a strategic activity in smart grids and smart cities (including contactless, open data, e-Gov, mobility and smart energy). ITEMS operates with public and private institutions, including the European Commission and the French government.

Key sectors of expertise cover: telecommunications, smart cities, smart grids, open data/big data, digital transformation.

BRAINPORT – High Tech Growth Accelerator
Brainport, with Eindhoven at its very heart, is a world-class top technology region. High-tech and design are combined with high-end manufacturing industry and entrepreneurship. Cooperation and sharing knowledge are part of our DNA and provide the basis for the

characteristic open innovation culture which makes Brainport so intelligent and strong. By quickly anticipating the world-wide changes and continuously forming new connections we create new opportunities for everyone. This attracts talent and companies from all over the world. In a unique business climate we work together in finding solutions for societal challenges with regards to health, mobility, energy, food and safety. Brainport is the high-tech growth accelerator of the Dutch economy.

Co-creating the future
