Zero Mothers Die: bold new initiative launched at UN General Assembly event

22 September 2014

Participative and collaborative foresight research process

Liège 2008 – Namur 2015: 600 pages!

Millennia2025 Femmes et Innovation :
Prospective, réseaux internationaux et actions concrètes pour l'autonomisation des femmes et l'égalité des genres, Bilan 2007-2015 - Objectif 2025

Ensemble pour l'égalité !

La Fondation Millennia2025 Femmes et Innovation active le *Plan d'action pour l'autonomisation des femmes et l'égalité des genres de Millennia2015* conduit avec le patronage de l'UNESCO en 2012, comme premier aboutissement du processus international de recherche prospective que j'ai créé et construit au sein de l'Institut Desfrere depuis 2007.

Vous et moi, nous sommes toutes et tous concernés par cette action en faveur de l'application des droits humains à femmes et hommes de tous âges, de tous pays, de toutes cultures. Ensemble, nous contribuerons à relever le défi de l'égalité. Ensemble, nous pourrons alors nous préoccuper de l'essentiel : construire un monde durable et en paix pour les générations futures.

Ce livre vous propose un voyage à aborder par plusieurs chemins : l'objectif global de l'égalité entre les femmes et les hommes, la méthode prospective, le réseau international de chercheur-e-s volontaires de Millennia2025, la chronologie du processus de recherche prospective, les actes des conférences internationales et les actions concrètes pour l'autonomisation des femmes. Bienvenue !

The book is written in French including links to all the chapters in English on www.millennia2015.org. Welcome !

12 Action Plans 2015 – 2025

Action Plans

The Millennia2025 Women & Innovation Foundation is developing the Action Plans resulting of the Millennia2025 Porthlight Exercise and International Working Groups (IWGs).

1 NO POVERTY	2 NO HUNGER	3 GOOD HEALTH	4 QUALITY EDUCATION	5 GENDER EQUALITY	6 CLEAN WATER AND SANITATION
7 RENEWABLE ENERGY	8 GOOD JOBS AND ECONOMIC GROWTH	9 INNOVATION AND INFRASTRUCTURE	10 REDUCED INEQUALITIES	11 SUSTAINABLE CITIES AND COMMUNITIES	12 RESPONSIBLE CONSUMPTION
13 CLIMATE ACTION	14 LIFE BELOW WATER	15 LIFE ON LAND	16 PEACE AND JUSTICE	17 PARTNERSHIPS FOR THE GOALS	

Practices

- Increasing institutional delivery services** by **Tanviya Rayamajhi | Gender, Ethics**
Goal: To increase institutional delivery services in Gorkha health center
- Improving Education and Skill Training** by **Jenny Sonnen | Measuring increase**
Goal: Improve the skills of new graduate midwives attending birth and emergency resuscitation mother and baby.

Education

- TEO THE DUCKLING**
Goal: Promote and help with illness normalization both child and family
- Optimizing Short-term Insulin Pump Application**
Goal: To optimize the short-term application of insulin pump in non-diabetic patients.
- The application of Chinese version Hypoglycemia**
Goal: aim to translate the hypoglycemia treatment plan into Chinese version and assist the bases
- Educational program for 14-16 years TID...**
Goal: Evaluate the educational intervention for 14-16 years TID group through didactical and didactical sessions

connecting nurses

Care Challenge gives nurses the opportunity to showcase their creativity. We are pleased to celebrate the achievements of all nurses who are taking the challenge to innovate. By sharing their steps, they are enhancing nursing practice within the community worldwide.

Could one of these 20 ideas help in your practice?

ICTs for Midwives

ONLINE COURSE ON ICTs FOR MIDWIFERY

Aplicaciones Digitales para la Salud Materna e Infantil

Documento desarrollado para el curso en linea sobre las TIC para partería para el Centro para los Adolescentes de San Miguel de Allende A.C, Mexico.

Enero 2016

CASA  millennia2025 Foundation  connecting midwives 

Ocho módulos cortos en temas claves

1.  ¿Qué son las tecnologías de la información y la comunicación (TIC)?
2.  Salud digital - La integración de las TIC al sector salud
3.  El uso de las TIC en la salud materna
4.  Ejemplos de programas de eSalud y mSalud dedicados a la salud materna en Latinoamérica
5.  Mujeres embarazadas y madres como pacientes empoderadas en línea (~~eFacultades~~)
6.  Teleeducación - Las TIC como herramientas facilitadoras de la capacitación y la educación continua en la partería profesional
7.  La partería y la medicina basada en la evidencia
8.  Los TIC en el fortalecimiento de las comunidades de parteras profesionales

Mobile for Women in the Rural Area

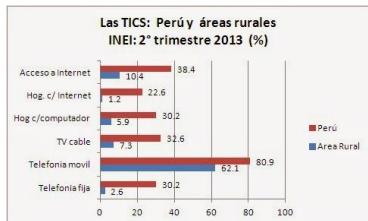

Murrugarra Lady1, Stacy Gee2, Lorenzo Dieterich3, Jose Lopez1

1 Universidad Peruana Cayetano Heredia, IMT "AvH", Lima - Peru

2 Wowem, Australia

3 SmartAQP, Peru

The ubiquity and affordability of mobile presents us with an unparalleled opportunity to improve social and economic development and positively impact lives. However, to realise these benefits, women must not be left behind in the mobile revolution. Mobile technology is a powerful tool. It transcends geographies, cultures and socio-economic status and offers wide-ranging benefits to women and society. Mobile phones help women feel safer and more connected, save time and enable access to key services such mobile money and health information. Mobile phones are important tools for enhancing the lives of women in low- and middle-income countries. Mobile phones help women feel safer and more connected, save time and money, and access lifeenhancing services such as mobile money, or potential education and employment opportunities.

Area Rural and Urban

e-PREVENTION's: the project aims at (a) Reducing maternal mortality and maternal health complications through increased access to appropriate healthcare information via mobile voice and text messages in local dialects by pregnant women in rural communities; (b) Accelerating mobile phone ownership and use by at-risk pregnant women in rural communities to increase access to healthcare and empower rural communities. This includes education of women on the benefits of mobile phone ownership and use, as well as facilitating connections with local healthcare workers through 30 minutes of free airtime per month restricted to calling the assigned local health care facility; (c) Educating, training and capacity-building of community health workers using tablets preloaded with up-to-date training materials and content to improve maternal and child health in their communities.

Work Group in LAC

Evidence shows that mobile health tools can help minimize time barriers and facilitate urgent care, as well as support health promotion through mobile messaging services.

The screenshot shows the website for the millennia2025 Foundation. At the top, there is a navigation bar with links: HOME, ABOUT, PROJECTS, INITIATIVES, EVENTS, MOOCS, APPS, BLOG, and CONTACT. The main title "millennia2025" is displayed prominently, along with the subtitle "Women & Innovation Foundation". Below the navigation bar, the word "TEAM" is centered in large, white, capital letters against a blue-to-white gradient background.

Participative and collaborative research process structured through three international conferences: Liege in 2008, Paris, UNESCO, in 2012 and New York, United Nations, in 2020.

PARTNERS

Connecting Nurses

 Connecting Nurses intends to provide a forum for nurses from around the world to share their ideas, advice and innovations. Connecting Nurses is an initiative for nurses supported by Sanofi in partnership with nurses organisations. Its mission is to bring nurses together on-line and in the real world. Connecting Nurses intends to provide a forum for nurses from around the world to share their ideas, advice and innovations. This network of shared knowledge will enhance nursing's leading role in advancing healthcare.

Connecting Midwives

 La plateforme Connecting Midwives a pour mission d'offrir aux sages-femmes un espace dédié leur permettant d'échanger, de débattre et de partager leurs idées, leurs projets et leurs innovations. Cet espace d'échange permet aux sages-femmes d'enrichir leurs pratiques professionnelles afin de réduire la mortalité maternelle et infantile, d'améliorer la santé des femmes, des nouveau-nés et des familles, en particulier dans les régions les plus défavorisées du monde. Ce réseau d'échange et de partage de connaissances et de ressources renforce le rôle de premier plan que jouent les sages-femmes dans l'amélioration des soins et de la santé maternelle et infantile. Connecting Midwives est une initiative développée par la Fondation Sanofi Espoir en partenariat avec la Confédération Internationale des sages-femmes (ICM).

UniversalDoctor Project

 UniversalDoctor Project, based in Barcelona, Spain, is a digital health company dedicated to facilitating multilingual communication between health care personnel and patients who do not speak the same language. UniversalDoctor develops applications to overcome language barriers by offering thousands of medical phrases and audios in over 20 languages covering various medical disciplines. These applications have been adapted and optimized for mobile devices such as smartphones and tablets.

Advanced Development for Africa Foundation (ADA)

 The Millennium Development Goals form the backbone of ADA's mission. The pace of this progress must be rapidly accelerated if African countries are to meet the MDGs and reap the benefit of a healthier and more productive population. By expanding the scale of its programs to address the MDGs in Africa, ADA can dramatically close the achievement gap.

Université Numérique Francophone Mondiale

L'UNFM relie les savoirs et les pratiques. Elle apporte enseignement et formation aux agents de terrain. Elle favorise la coopération interprofessionnelle dans les domaines variés de la promotion de la santé, l'hygiène et environnement, l'éducation, l'informatique, et la gestion.

- mDiabetes: WHO, ITU's Initiative to Promote Diabetes Awareness in Senegal

360Medlink

360Medlink is a software company dedicated to the pharmaceutical and healthcare industry. Our company offers the latest interactive multimedia solutions, digital communication, customized applications and a unique technology for interactive broadcast of live events. We serve some of the leading global pharmaceutical companies throughout North-America and Europe.

The International Society for Telemedicine and eHealth

The International Society for Telemedicine and eHealth aims at facilitating the international dissemination of knowledge and experience in Telemedicine and eHealth and providing access to recognized experts in the field worldwide.

ISfTeH Working Group on Women

The objective of the WoW is to catalyse the interest of the ISfTeH members on gender issues in eHealth and telemedicine. Yet, gender balance is not common in this area, in healthcare facilities, IT industry, engineering companies, telecom and internet providers. One of the recommendations of the Women and e-Health session indicates that education for girls and women in IT and engineering is the key to ensure better gender balance in the future. The WoW will also contribute to motivate organizers of international events in eHealth and Telemedicine, publishers, scientific editors to ensure that women are equally represented.

GENOS Global

Es una firma consultora especializada en salud global y desarrollo social dentro del marco de los Bienes Públicos Mundiales. Somos una empresa social que valoriza la solidaridad, la participación comunitaria y las respuestas multi-sectoriales a niveles local y global. Nos nutrimos de la colaboración trans-regional y la transferencia del conocimiento bidireccional entre el Sur y el Norte Global. Creemos en el poder de transformación de las soluciones tecnológicas desde que sean basadas en el capital humano y el capital social.

The International Conference on Gender Empowerment

Gender empowerment is needed, particularly in spreading more harmonious living for women and men, free from poverty and domestic violence towards family welfare. The International Conference on Gender Empowerment 2012 (see: www.genderempowerment.com) has been conducted successfully during 10-13 July 2012 in Jakarta and Bandung. Bandung Declaration on Gender Harmony has been endorsed as the result. The next event happens on 1-3 December 2014, Chandigarh, India.

Diplomatic Council

The Diplomatic Council (DC) is a United Nations (UN) registered global Think Tank with the objective to serve as a bridge between diplomacy, economy and society. A thriving economy bringing prosperity to mankind is one of the best guarantor for peace. As members the Diplomatic Council welcomes not solely members of the diplomatic or consular corps but also personalities from industry, politics, society, culture and sports. The DC network encompasses more than 5000 personalities worldwide.

With the WeObservatory of the Millennia2025 Foundation, the Diplomatic Council is willing to support Zero Mothers Die project, <http://www.zeromotherstodie.org/>.

Organisation Mondiale pour l'Education Prénatale

L'OMAEP est un organisme de type fédéral, qui regroupe 20 Associations pour l'Éducation Prénatale, actives dans 17 pays, sur 3 continents. L'OMAEP comble une lacune de nos sociétés actuelles, en suscitant une prise de conscience collective de l'importance de la période des 9 mois, au cours desquels l'être humain construit les premières bases de sa personne future.

People Olympics

THE PEOPLE OLYMPICS FOR HEALTHY LIVING offers to participating cities the opportunity of being part of a social innovation initiative for boosting their citizen's participation and wellbeing, which also promises to generate new jobs and economic activities. The People Olympics is a social game, based on competing cities. Each city has a team of 10,000 participants, which reflect that city demographics. The members of the team track their physical activity through portable devices, which measure diverse physiological data. A system collects all data and updates the real time cumulative fitness activities at city level. It also compares it with the value of the other competing cities.

OCAPROCE International

OCAPROCE International (Organisation pour la Communication en Afrique et de Promotion de la Coopération Économique Internationale), est une organisation de droit suisse, créée le 28 février 2003 à Genève, dotée d'un Statut Consultatif Spécial auprès du Conseil Economique et Social (ECOSOC) des Nations Unies, et d'un statut de catégorie générale auprès de la Conférence des Nations Unies pour le Commerce et le Développement (CNUCED). Sa mission principale est de servir la mise en œuvre des Droits Économiques Sociaux et Culturels des femmes, des droits des enfants et des jeunes
