Fintech

Value of innovation for private sectors: More revenue. And for the H&D sector?

Value for H&D sector:

**Improvement of
people's lives.**

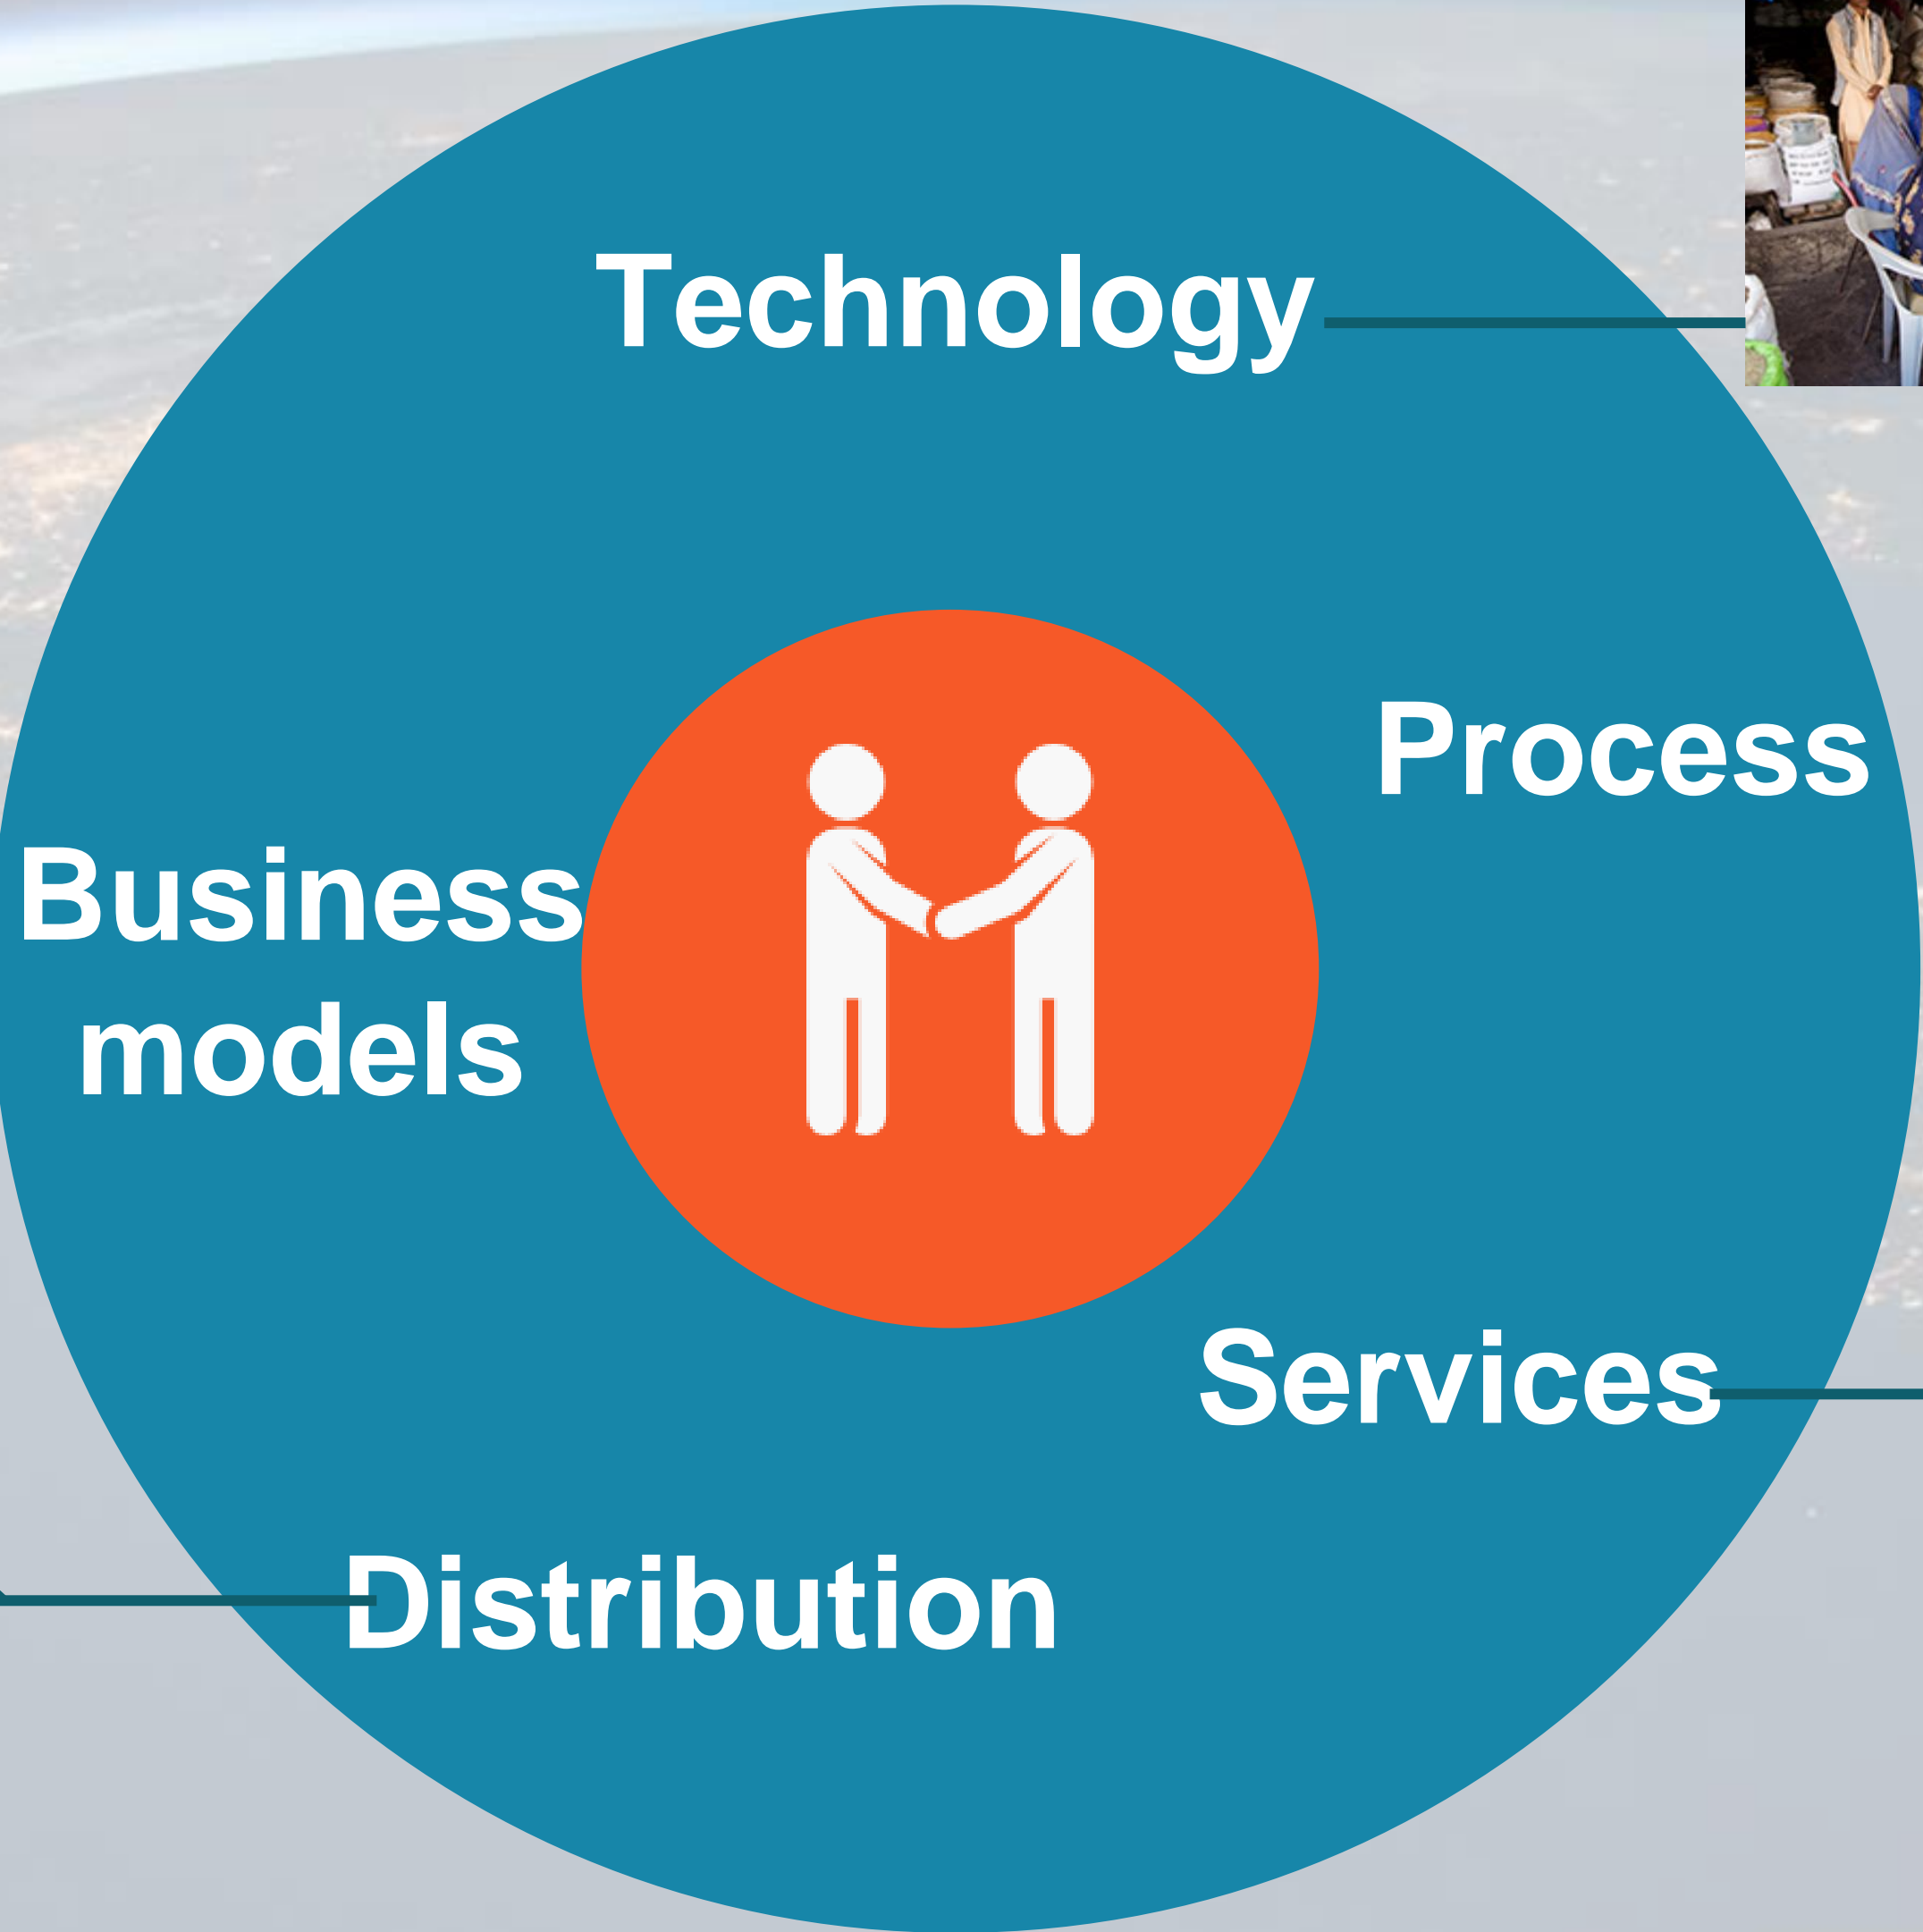

Examples of innovation in H&D sector

Ethereum-based blockchain to manage cash-based Syrian refugees living in the Azraq camp in Jordan, with biometric identification.

Aid delivery in Malawi with drones

People can send digital payments to anyone, regardless of what kind of account or service they use.
