

# Copenhagen in transformation

/ Maria Antonsen

**Denmark's capital city is growing**  
Copenhagen is a city in growth and one of the best places in the world to live.

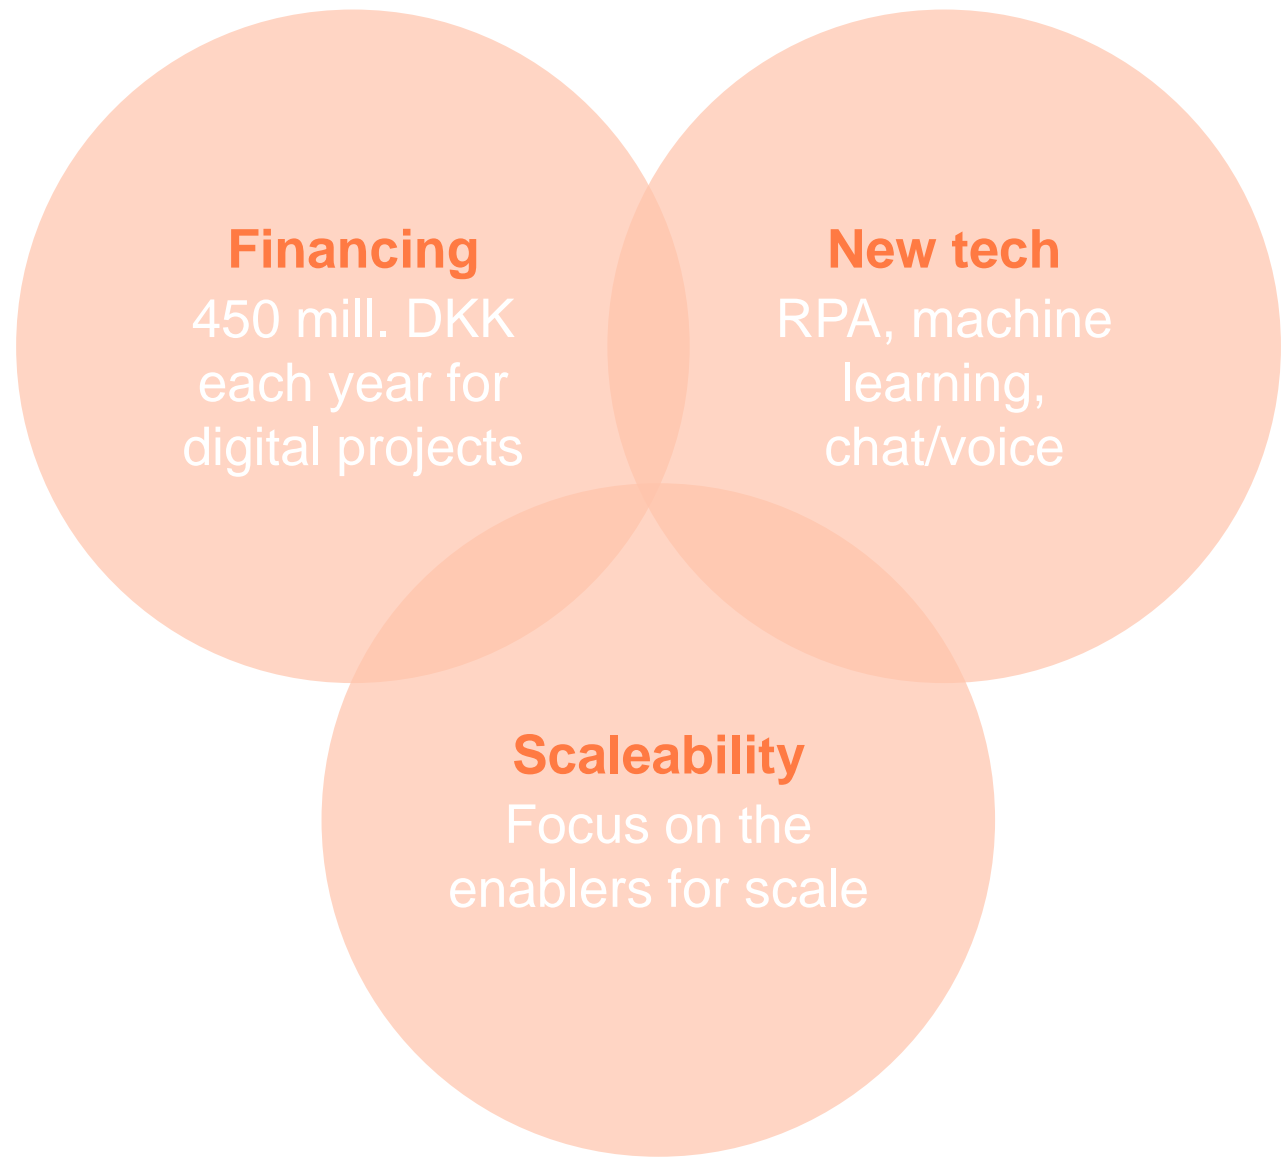

In September 2017, Copenhagen's population passed 610,000. And that figure will keep rising.

**In 2027, we expect to be about 700,000.**

**This equals: more income and more growth but it also puts a pressure on the costs of service and service capacity**
