S8: Women in Digital Services

- **State of the art of female presence in the IT/digital industry**
- **How technology democratization opens opportunities to women**
- **Future drivers to enhance women's contribution in IT/digital services**

- **27%** of women in the French IT software and services industry in 2014 vs 25% in 2010 – *Markess for Syntec Numérique*
- **26%** of professional computing occupations in the 2017 U.S. workforce held by women – *ncwit.org*
- **17%** of Fortune 500 Chief Information Officer (CIO) positions held by women in 2017 – *ncwit.org*
- **11%** of all executive position in Silicon Valley were held by women in 2015 – *Fenwick and West LLP*
- **30%** of women in senior leadership at Facebook in 2018 compared with 23% in 2014 – *FB Chief Diversity Officer*

# How technology democratization opens opportunities to women

Time period	Key IT Technology	IT environment/ organization	Gender role
<b>1960 - 1980</b>	Mainframes Minis	<ul style="list-style-type: none"> <li>. IT department control by males</li> <li>. Top down approach</li> </ul>	<ul style="list-style-type: none"> <li>. Computer training mainly for men</li> <li>. Female for clerical tasks</li> </ul>
<b>1990 - 2000</b>	Servers Networks PCs	<ul style="list-style-type: none"> <li>. Departmental computing with a growing number of female users</li> <li>. Decentralization of IT</li> </ul>	<ul style="list-style-type: none"> <li>. More female business lines managers involved</li> <li>. Female skills participation to solutions development</li> </ul>
<b>2000- 2020</b>	Internet e-business Digital	<ul style="list-style-type: none"> <li>. All employees involved</li> <li>. Collaborative and bottom up approach</li> </ul>	<ul style="list-style-type: none"> <li>. Higher female contribution to digital development</li> <li>. Female understanding to initiate innovative digital approaches</li> </ul>

**Transition from a « techno centric » environment to a « usage centric » one favorable for women**

## **Funding** of women owned start ups:

Richard Branson's fund Virgin start up pledging to fund companies started by men and women equally by the end of 2020.

In Europe 6% of venture-backed start-ups were led by a female CEO last year – *Atomico*

## **Attracting** women profiles from other industry sectors:

To compensate the shortage of IT experts, women are reskilled  
1,4 million software development jobs unfilled by 2020 – US BLS

## **Benefiting** from technology:

Digital and internet technologies are opportunity for women aid in breaking down barriers to mobility.

**Never stop asking!**  
**Never stop dreaming!**

CEO HAIDO

## Who I am, a woman who

**JOHAN HUIZINGA**

homo ludens  
essai sur la fonction sociale du jeu

tel gallimard

IVAN  
**ILlich**

**ÉNERGIE  
ET ÉQUITÉ**

## What is the situation?

**45% of girls choose Scientific approach**

**7% of boys choose Literary**

**At high school, General cursus**

(in France, Rapport Vers l'égalité réelle entre les femmes et les hommes 2017)

## Digital Services, what is that?

Cloud      e-commerce      Virtual Reality      platform  
Education

**HACK YOUR NEURONS**  
**WE NEED ALL IDEAS**      **WE NEED SKILLS**  
**WE NEED PEOPLE**

Smart cities      Software      Electrical  
Transformation

### What we did last year in France

+20 000 people trained to programming  
+500 events

### What is our future

Branch in Germany  
Branch in New-York (USA)  
...

e-mma

### What are our activities

Coding workshops from 7 to 100years old  
Discovery workshop about digital world  
Tech conferences

### Where we are

France  
Albania (West Balkans)  
Spain  
Belgium

## LEARN TO LEARN

**Develop independent thinking**

**Increase your critical reflection**

**Have a interdisciplinary approach**

## SHARE WITH OTHERS

**IMITATE  
THE NATURE**

**Never stop asking!**

**Develop your ability to  
see and understand interconnections**

**STAY CURIOUS**

# JUMP and PLAY !

**Learning should be first of all a pleasure**

**Sapere Aude**

**AZAMAG Chief Editor**  
Davide Adams SOKENG

**AZA MAG**  
Le E-Mag des Femmes Entrepreneures

- CREATED IN SEPTEMBER 2016**
- PROMOTE FEMALE AFRICAN ENTREPRENEURS**
- DIGITAL MAGAZINE, LARGER SCOPE**
- WRITERS IN 8 DIFFERENT COUNTRIES: SENEGAL, COTE D'IVOIRE, GHANA, CAMEROON, GABON, MAURITANIA, CANADA, GUINEA**

## **WOMEN DIGITAL ENTREPRENEURSHIP AT A GLANCE**

- **Women use internet to promote their products**
- **Women groups on Facebook: business advices, good's promotion, career advice etc**
- **More than 27% of women in Africa are entrepreneurs, (consulting firm Roland Berger)**
- **Women produce 65% of the continent's goods, (GEM's Women's Entrepreneurship report)**

## **HOW TO RAISE WOMEN PROFILE?**

- **Train women on digital practices, help them boost their businesses via social networks,**
  - **Organize sessions to exchange experiences, knowledge sharing,**
  - **Set up a mentoring platform**
- Women's Entrepreneurship report.**

## **Women in Digital Services**

Valérie Champetier, Founder and  
Director ThinkandAct

**From my place as an expert in the Creative and Cultural Industries, I would like to share with you 2 experiences**

- The place of women in developing countries and can digital technologies bring liberation?
- Where are the women in the digital sector in France?

## Context

- **Mission** for CFI, the **French agency for media development** before launching a new media program
- **Understand expectations and needs of the Civil Society** in North Africa
- Special focus on **women and youth**

## The picture

- Women and young people : **not integrated** into social, economic and political life. **No clear strategy from governments** to these large segments of the population
- **Employment is the primary concern** of women and young people in those countries
- Women and young **people no longer want to be presented as victims but as active**, dynamic citizens, capable of succeeding despite the difficulties
- **Young women are the first to use social media and digital technologies**, mainly in the private sphere

## Actions

- Business **incubator in digital** and new medias
- Support **Digital platforms for employment**
- **Best practices** : Web-radios have more women and married women in their teams than old media

## Awareness

- Be careful that **enough women are candidates**...Don't accept: "they are not interested enough in technical matters", quotas?
- If a woman is involved in a project, **her entire family (husband, brother, son) must be informed** so that they can follow and support her
- Improve job offer platforms to get: reliable information, testimonials, networking, advice... Specifically dedicated to women and young people

## Context

- Baseline assessment in Digital and creative and cultural industries

## Women in Digital Sector in France

- Originally, women were more numerous in IT. Thirty years ago, women held about 30% of the technical functions of digital professions (development, operation, production and project management).
- This share has since been halved (15%), and women are now mainly found in support functions.

## Actions

- Raise women's awareness of the opportunities that the sector presents for them in schools, newspapers, social media ...
- Schools: Ecole 42, Grande école du numérique
- Associations: Ambition Féminine and WomenInTechnology

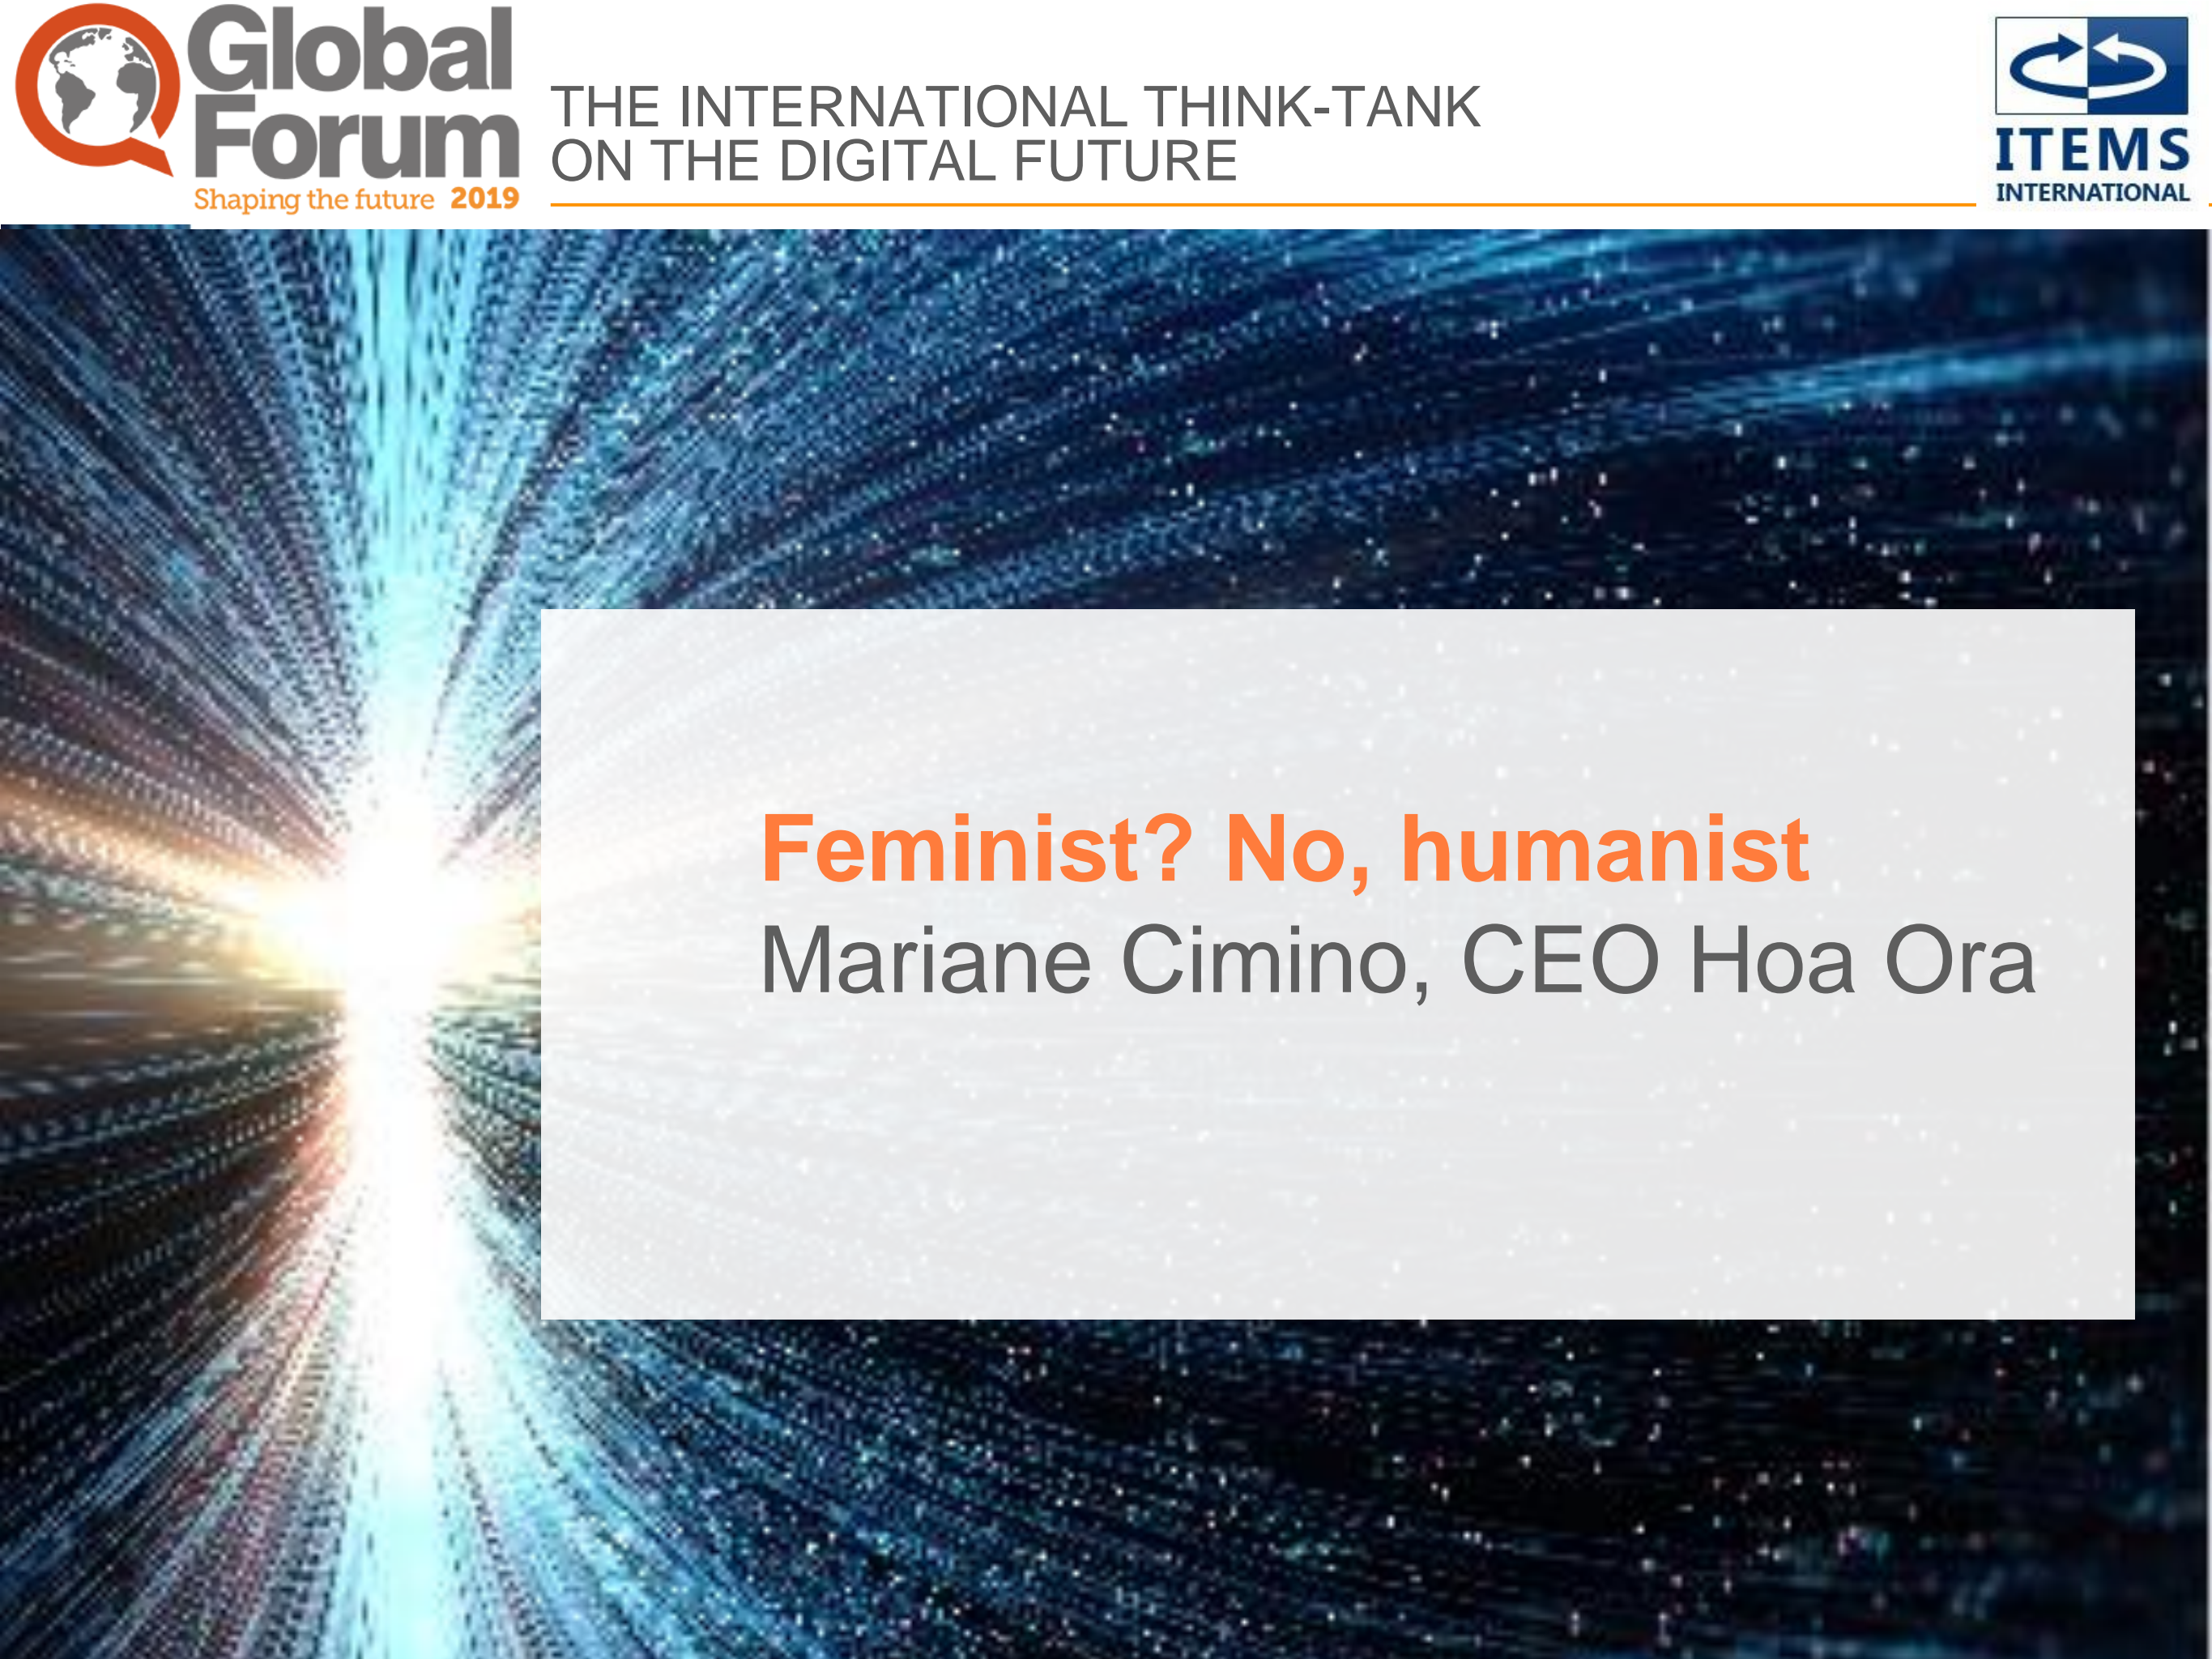

## Findings

- Digital (and ICC) is not the grail
- Not so much difference between countries
- Always special focus and actions on the women's position

**Feminist? No, humanist**  
Mariane Cimino, CEO Hoa Ora

### **Preliminary precautions:**

- I personally never have experienced harassment or violence
- I have never been forced into an activity as a woman (for my external image, my opinions, my decisions...)
- I live in a country that works for a better place for women\*
- If I fight for equal pay, it is not relied to a gender issue
- I did not have to use my condition of woman as an argument in any occasion

**I am therefore aware of my luck considering other situations!**

I do not want to generalize and apologize in advance for the ones who could feel hurt

## Balance between men/women - IT and health -

- University
- Pharmaceutical Industry
- Public health organizations
- eHealth consultant

## Subjects more dedicated to women:

- IT Quality
- Marketing/Communication
- Social and Human Sciences
- Regulatory Affairs

## My preferences, with a majority of men:

- Data security
- Infrastructures
- IT developments
- Project management

## The “clichés” of Tech start-up

- Young people
- Cool attitude
- Men as IT developers
- Women as Marketing/Com
- Standardized elevator pitch

## As a CEO of a health/social services platform

- Leadership (with young, seniors, women/men, int/ext...)
- Multitasking (finance, com, bus dev, IT, SHS...)
- Environment-Social-Governance investments UN criteria
- Environmental, Demographic and Digital transitions

### **Women strengths / weaknesses are still deeply relied to our ancestral roles**

Life generation and care

Welcome of others, openness mind, expression of emotions and exchanges in order to figure out the situation

### **Not a question of gender but difference of consideration, judgments, discriminations**

Due to age, social status, culture, power affirmation, need of recognition...

- **So, be yourself with your qualities/defaults**
- **and do you best with what you are!**
