equipped with our systems

+600 cities using our security
systems

We provide infrastructure, services and digital solutions

BETTER CITIES
TODAY

Our heritage infrastructure/services business + new digital solutions + deep experience and sense of working with local authorities = unique competitive position

OSU : Energy Management Project

Springfield (Australia)

ENGIE and Springfield City Group, the master planner behind the emerging city of Greater Springfield, in Queensland Australia, today signed a historic 50-year strategic alliance to make Greater Springfield a net zero energy city.

An aerial photograph of a solar catamaran boat sailing on the ocean. The boat is white with a large array of solar panels on its deck. It is moving from the bottom right towards the top left, leaving a white wake behind it. The background shows the blue ocean and a sandy beach with waves breaking on the shore. A large, dark, semi-transparent rectangular box is overlaid on the center of the image, containing the text "THANK YOU FOR YOUR ATTENTION" in white, bold, sans-serif capital letters.

**THANK YOU FOR YOUR
ATTENTION**
