

Education 4.0, the next way of teaching

Franco Claudio Grossi

*Kazan State University of Architecture and Engineering
Kazan, Russian Federation*

Traditional Education Classroom

Traditional education focuses on instilling knowledge "into" the minds of students. The main purpose of outdated education is to "teach" students "content".

Covid-19

Distance Learning

Hybrid Classroom Design

Microsoft Teams and Zoom Environments

3 ThinkSmart Edition Tiny + Logitech TAP + Logitech Rally Kit Plus

1 ThinkSmart Hub Teams/Zoom

2 ThinkSmart Hub Teams/Zoom + Camera

Modern Education

Modern education focuses on growing strong social, creative and conceptual thinking. Today, the main purpose of education is to shape personality and learn new cultural literacy.

Modern Education

Internal Layout of a Modern Class Room

1st Set-up

Study in learning groups

Modern Education

Virtual Simulation
Smart Classroom

2nd Set-up

Modern Education

Multimedia Perception

Smart Classroom

3rd Set-up

Education 4.0

AI, IoT, Big Data, Virtual Reality, etc...

Based on smart technology + equipment, empower new teaching, teaching and research, and promote the upgrading of educational information

Education 4.0

International Collaborative School

Education 4.0

Teaching with the VR

Education 4.0

**Network remote
interactive smart
classroom**

**Internet remote virtual
teaching**
