

# Breakthrough Innovations and their impact on human life

Keynote presentation  
Armen Orujyan

# Technology

# Eras

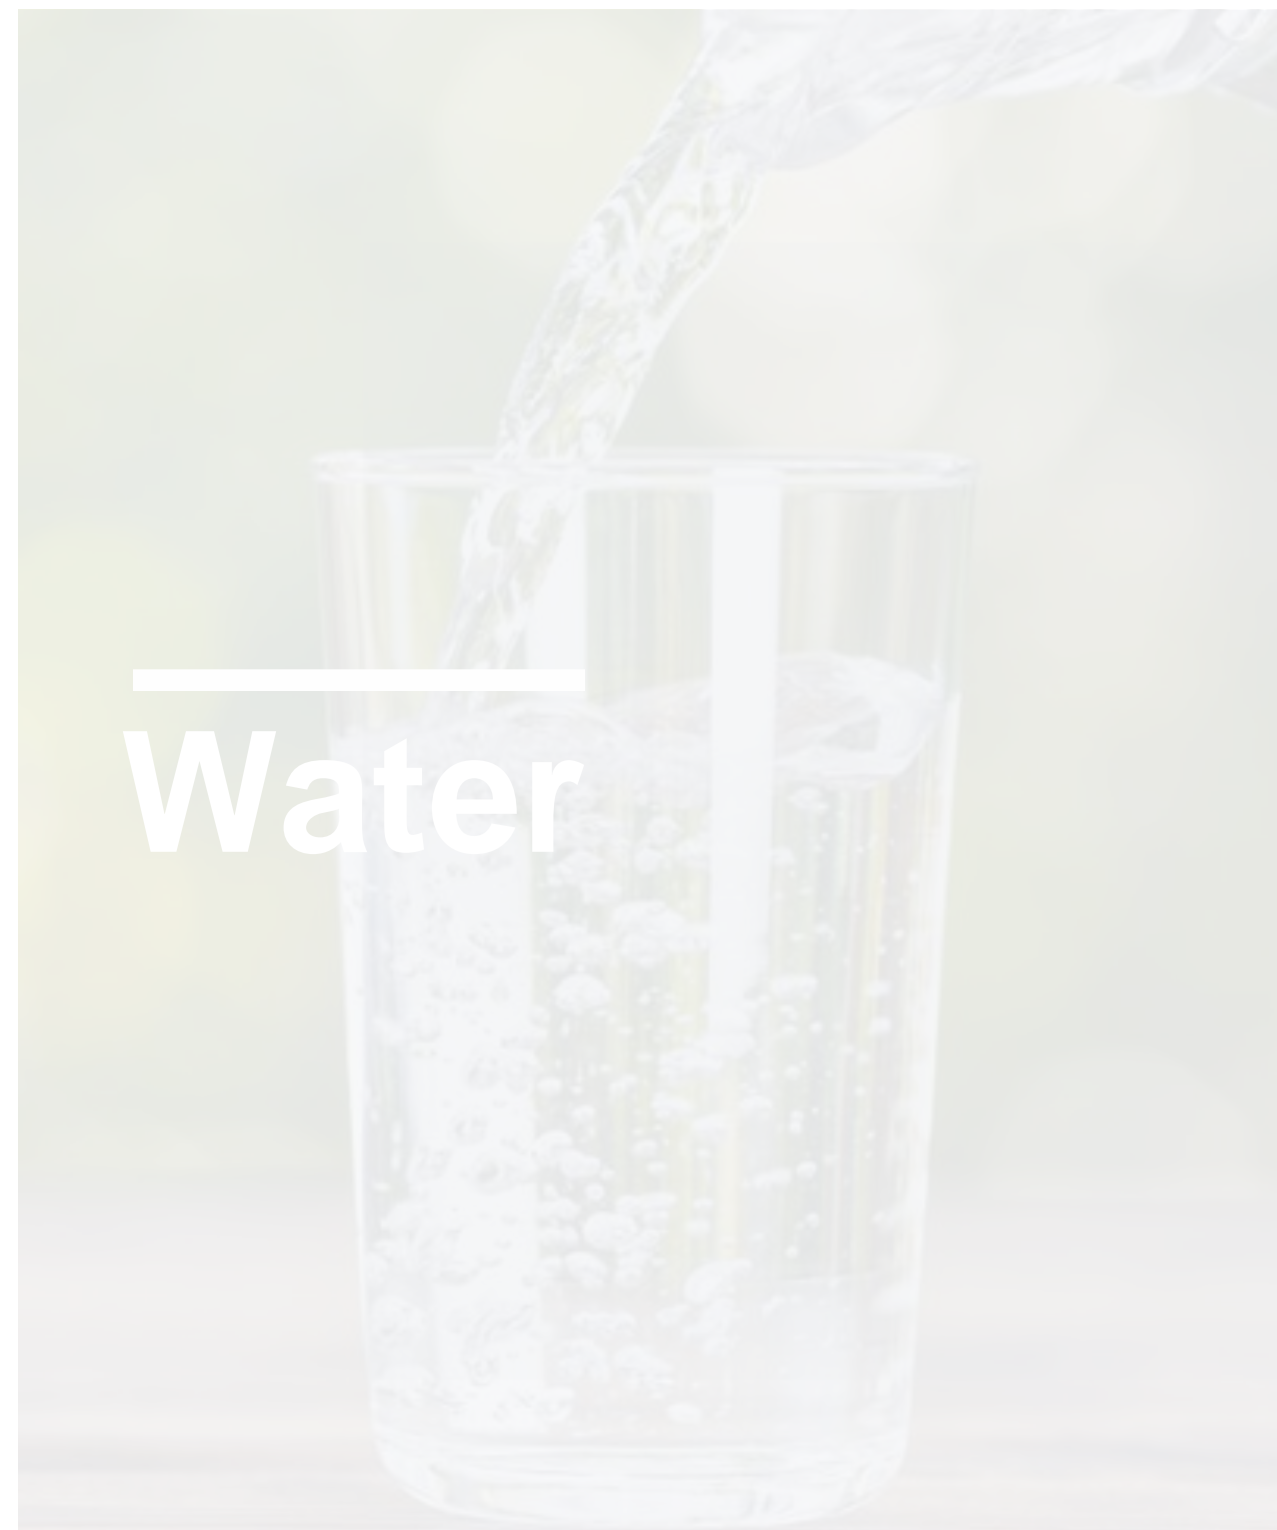

1. **The nomadic hunter-gatherers**
2. **The Metal ages**  
Using tools and weapons fashioned from easily available wood,
3. **The first Machine age**  
The first stone and metal tools to induce and control fire
4. **The beginnings of the quantity production**  
The first clocks and printing press, when knowledge began to be standardized and widely disseminated
5. **The full flowering of the Steam Age**  
With the early application of steam power, the factory system
6. **The rapid spread of internal combustion engine**  
began irreversibly to displace craft-based manufacture
7. **The Electrical and Electronic Age**
8. **The Information or Digital Age**
9. **The Age of Deliberate Evolution**

# Human

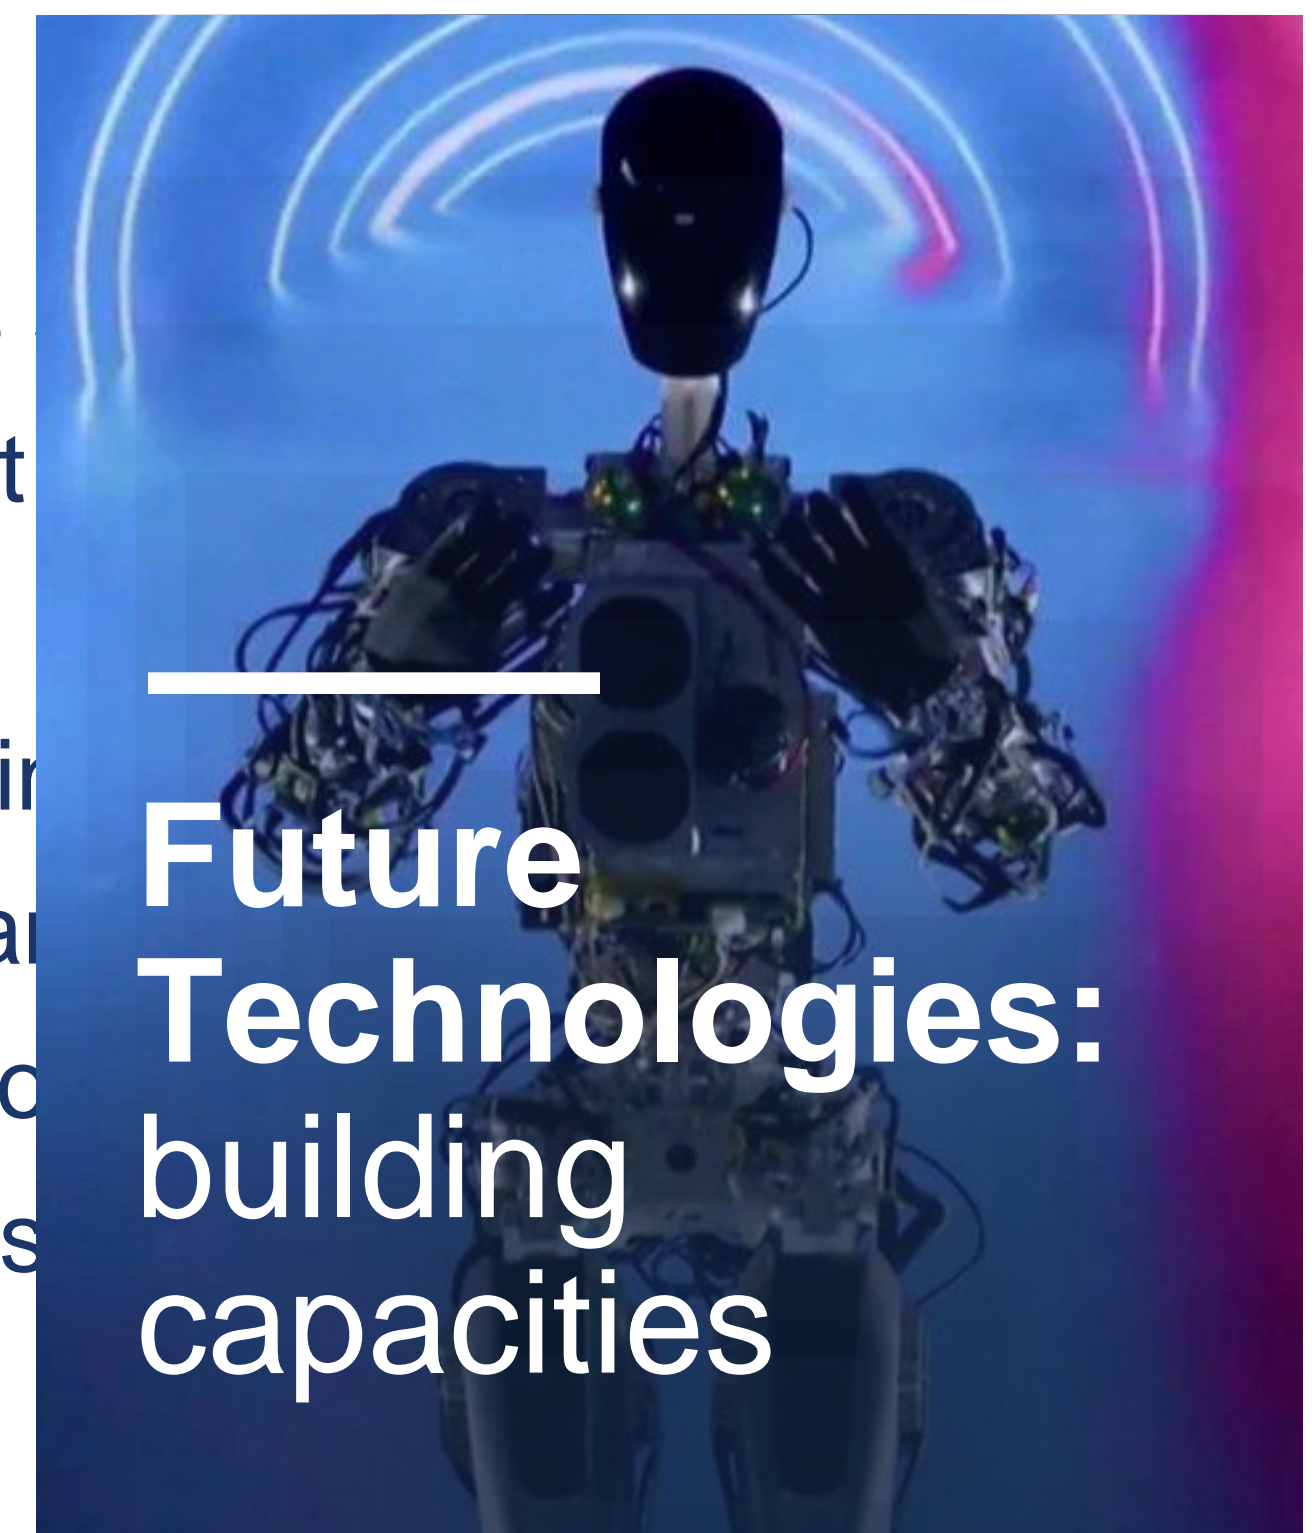

# Human Fragility

- 3 minutes without air
- 3 days without water
- 3 weeks without food
- Air 21% oxygen concentration to breath
- Altitudes under 4,500 meters
- Body temperature 36.6C
  - 42C overheat lethal
  - 21C freezing lethal
