

# Improve Health in developing countries

From **Foreign Aid** to **Self Aid**

Philippe Scheimann & Eyal Bloch

**TOP** :a Healthy link between humanity and technology

**“I've dealt with many different problems around the world, and I've concluded that there is only one real problem: over the past hundred years, the power that technology has given us has grown beyond anyone's imagination, but our wisdom has not, if the gap between our power and our wisdom is not redressed soon, I don't have much of hope.”**

A senior officer from the UN (6)

# July 2017, First Graduation Ceremony TOP Connectedness & Leadership Course

# Feedback of TOP Participants after one week of training

## George

Top Kenya is an avenue I can use to explore and expound(transcend)on my potential in leadership, creativity, innovation, exposure to technology among others.

## Abner

Have you ever wondered how it would feel? when all the years you spent in school were reduced to one week!

In this week the hard things now were more than possible but now a reality!

That is the definition of the TOP week training where school is redone to fit the needs of our daily lives.

# TOP Kenya Co-founder

## TOP solutions: Health & Technology

- Online platform: share challenges & solutions
- TOP Centers:
  - Strauss Energy: energy+water
  - Makers Room: build /customize own solutions
